KONECRANES

Q3 results 2022

October 19, 2022

Q3 in brief

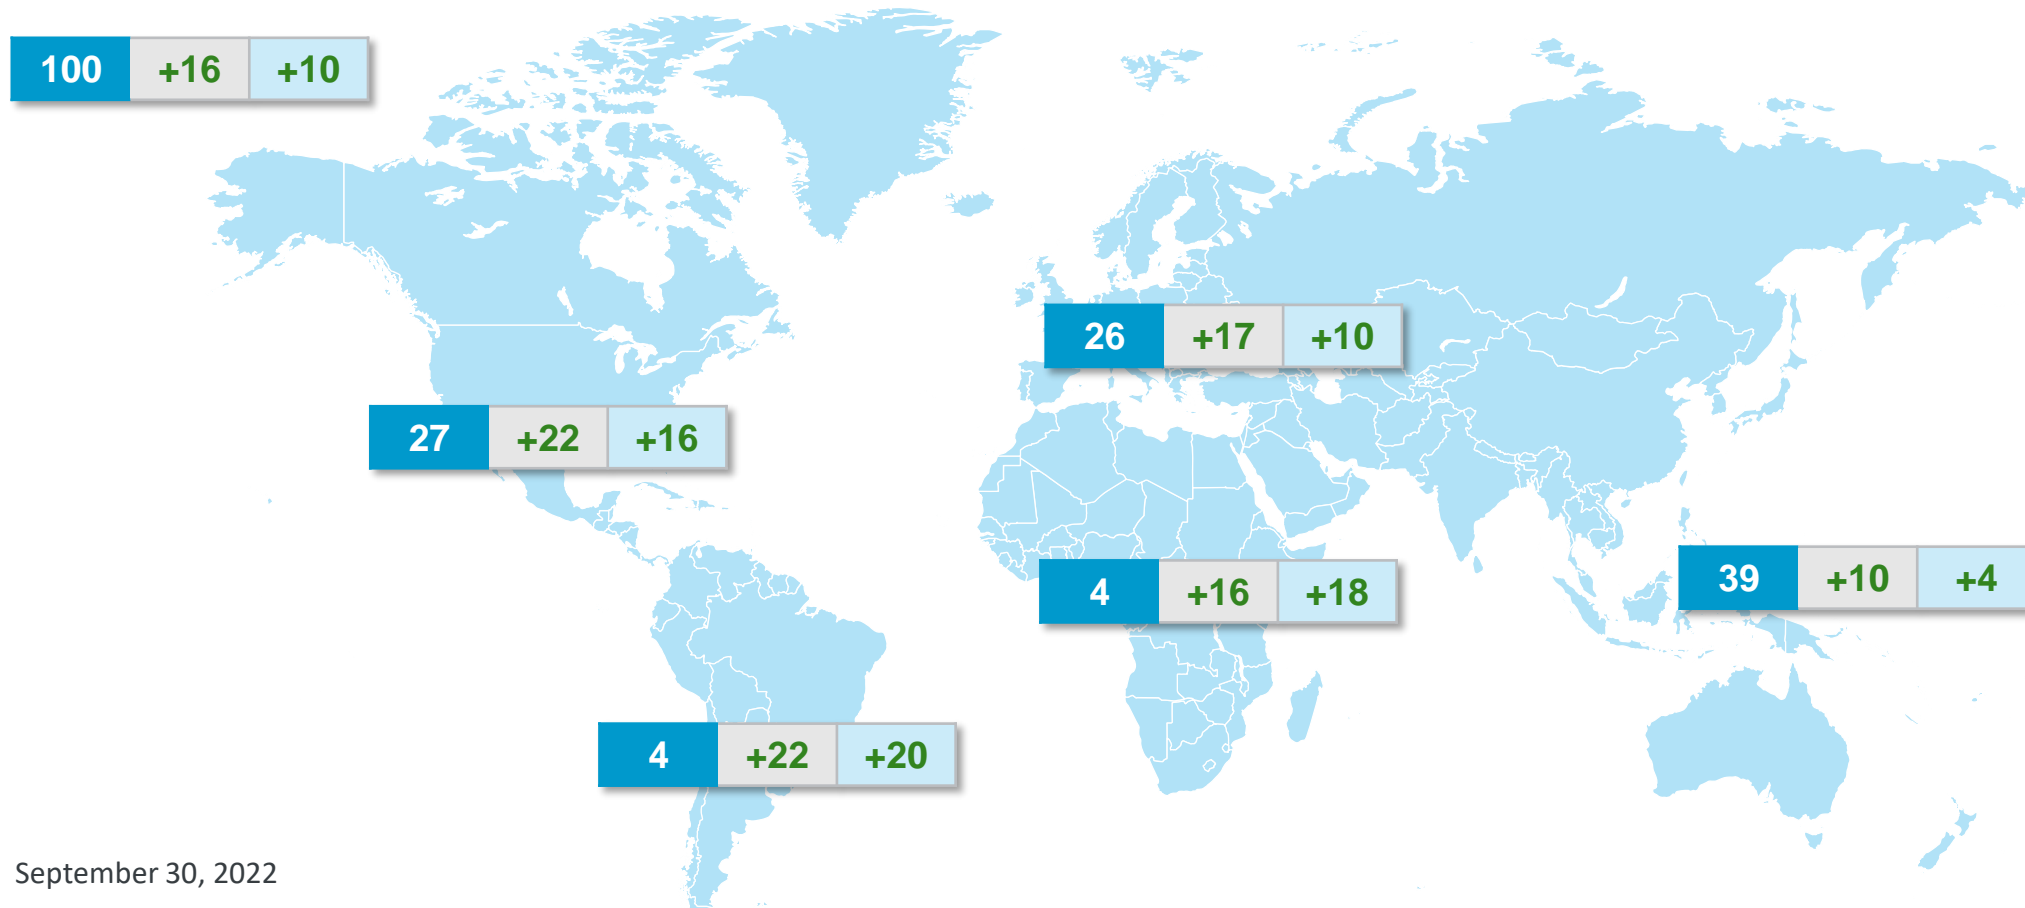

- Strong orders despite mixed demand
 - Solid year-on-year order growth in all business areas except Vacuum Technique
 - Decreased equipment demand from the semiconductor industry
 - Continued growth for service
 - Growth across all regions
- Sequentially order volumes were down
 - Primarily driven by lower order intake for equipment to the semiconductor industry
 - Lower order intake for power equipment and slight order decrease for industrial compressors and assembly solutions
 - Growth for service
- Record revenues, record operating profit, and solid cash flow
- 11 acquisitions completed

Q3 financials

- Orders received were MSEK 40 555 (33 023), organic growth of 6%
- Revenues reached MSEK 38 074 (27 824), organic growth of 18%
- Operating profit was MSEK 8 378 (6 000), margin at 22.0% (21.6)
 - Adjusted operating profit at MSEK 8 469 (6 109), margin of 22.2% (22.0)
- Profit for the period was MSEK 6 536 (4 557)
- Basic earnings per share were SEK 1.34 (0.94, adjusted for share split)
- Operating cash flow at MSEK 5 705 (4 664)
- Return on capital employed was 29% (27)

Orders received – local currency

September 30, 2022

Share of orders received, year-to-date, %	Year-to-date vs. previous year, %	Last 3 months vs. previous year, %
---	-----------------------------------	------------------------------------

Order growth per quarter

Organic growth, %

*2012-2017 excluding Mining and Rock Excavation Technique business area (now part of Epiroc AB).

Sales bridge

Organic*, %	+6	+18	+14	+11
Total, %	+23	+37	+27	+24
2022	40 555	38 074	121 944	101 271

*Volume, price and mix.

Orders by business area and organic order development*

* Share of Group orders received 12 months ending September 2022.
3 month organic order development compared to previous year.

Compressor Technique

- Strong orders, organic growth of 21%
 - Solid growth for equipment, particularly for larger compressors
 - Continued growth for service
 - Sequentially equipment orders down, growth for service
- Record revenues, 13% organic increase
- Operating profit margin at 24.2% (24.1)
 - Supported by increased organic revenues and currency
 - Negative effect from supply chain constraints
- ROCE at 83% (94)

Innovation:

A new range of oil-free tooth compressors, The ZT30-50VSD+, offering compact design, low noise, and 15% more energy efficiency compared to the previous generation.

Vacuum Technique

- Lower equipment demand, organic order decline of 23%
 - Decreased order volumes for semi equipment
 - Solid growth for industrial vacuum equipment and service
 - Sequentially equipment orders significantly down, growth for service
- Record revenues, increase of 27% organically
- Operating profit margin at 23.0% (24.1)
 - Supported by currency
 - Negative effect from supply chain constraints and investments in production
- ROCE at 25% (24)

Innovation:

A new module for integrated vacuum and abate module, the Hydrogen Dilution (H2D), providing significantly lower energy consumption and less carbon footprint compared to other solutions in semiconductor processes.

Industrial Technique

- Strong order intake, organic increase of 21%
 - Significant growth for automotive equipment, general industry flat
 - Continued growth for service
 - Sequentially order volumes essentially unchanged
- Record revenues, 14% organic increase
- Operating margin at 21.4% (20.7)
 - Supported by increased organic revenues and currency
 - Negative effect from supply chain constraints
- ROCE at 18% (15)

Innovation:

A new handheld torque wrench with connectivity features. The STRwrench, supporting customers to increase flexibility and reduce errors in their production.

Power Technique

- Solid equipment demand, organic order growth of 16%
 - Solid equipment growth driven by portable compressors and generators
 - Strong growth for specialty rental and service
 - Sequentially equipment orders down, service flat
- Revenues increased 20% organically
- Operating profit margin at 18.9% (16.5)
 - Driven by increased organic revenues
 - Negative effect from supply chain constraints
- ROCE at 27% (25)
- Acquisition of Lewa and Geveke completed

Innovation:

A new portable oil-free compressor for the specialty rental business with variable speed drive. The PTE900 VSD offers efficient airflow in a compact design and is developed to perform in demanding environments.

Group total

July – September 2022 vs. 2021

MSEK	July - September		
	2022	2021	
Orders received	40 555	33 023	23%
Revenues	38 074	27 824	37%
EBITA¹⁾	8 844	6 373	39%
– as a percentage of revenues	23.2	22.9

Forward-looking statements

“Some statements herein are forward-looking and the actual outcome could be materially different. In addition to the factors explicitly commented upon other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialization and technological difficulties, interruptions in supply, and major customer credit losses.”
