Q3 results 2021

October 21, 2021

Q3 in brief

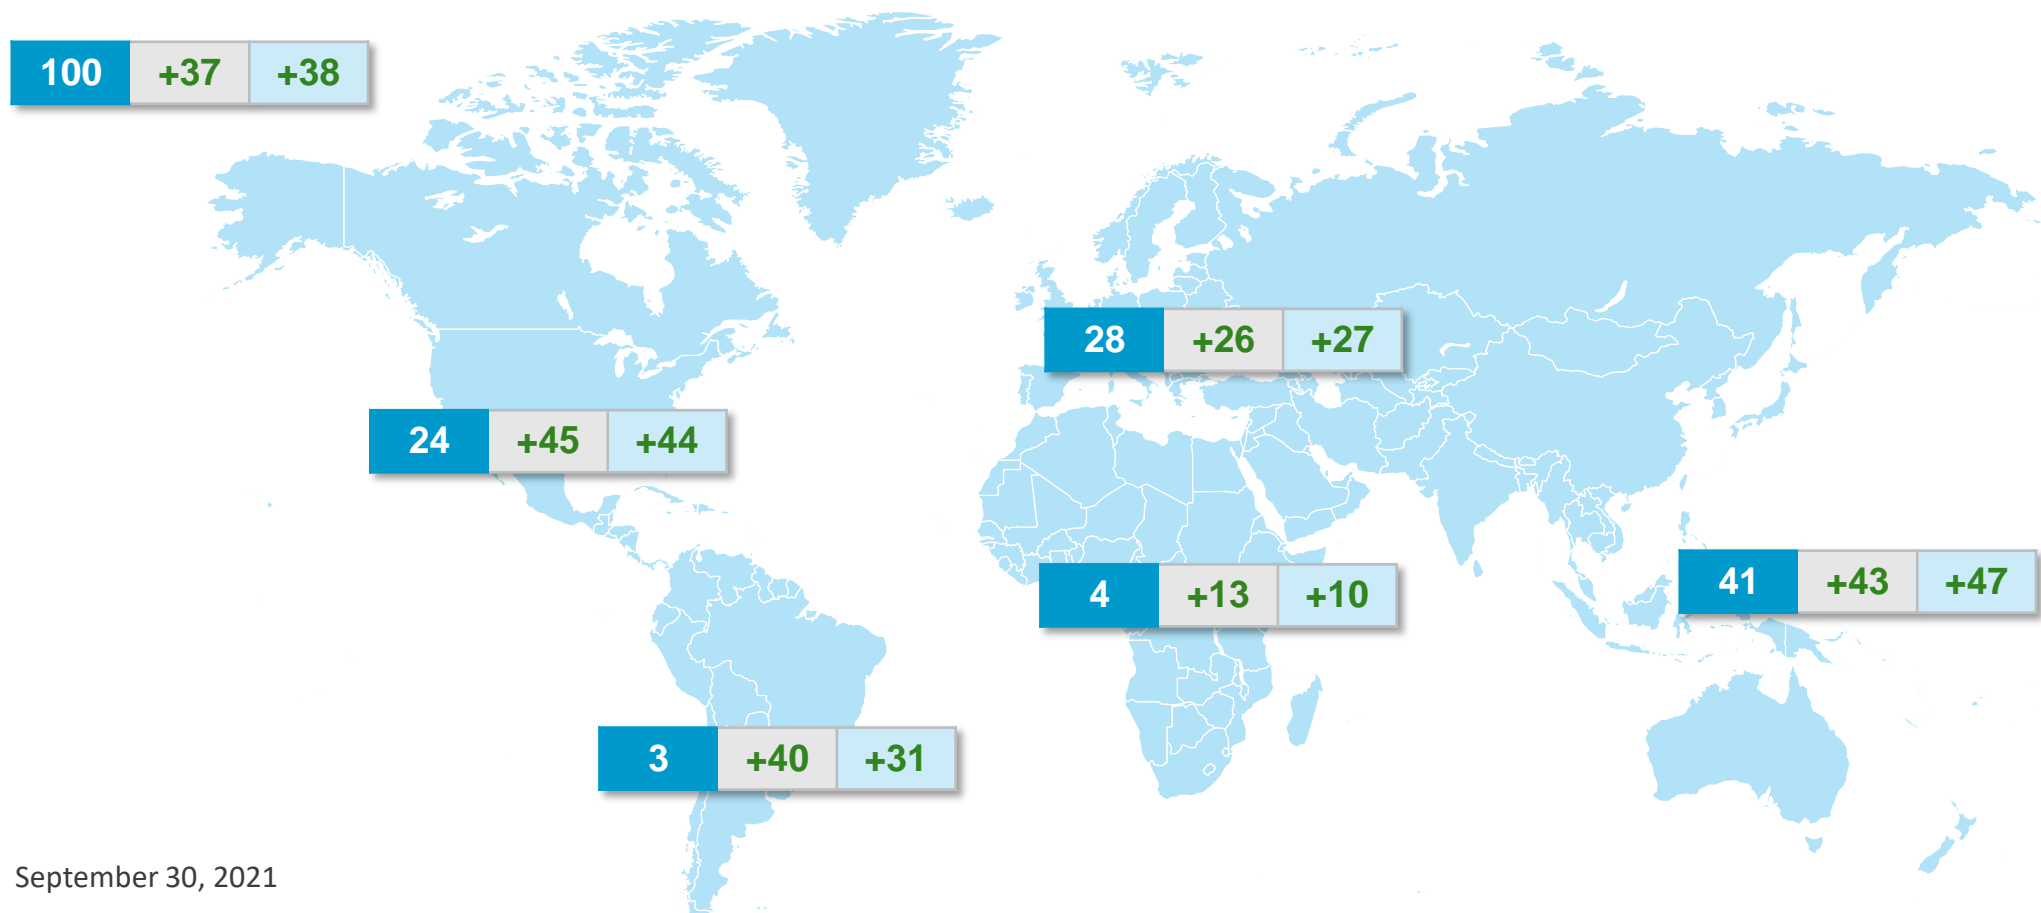

- High demand in all business areas
 - Continued strong order growth from the semiconductor industry
 - Solid year-on-year order growth in all business areas and in all regions, previous year still heavily affected by COVID-19
- Sequentially flat order development
 - Strong order growth for semi equipment offset by most other equipment types
 - Service volumes unchanged
- Revenues on a high level, negatively affected by supply chain constraints
- Solid profitability and operating cash flow

Q3 financials

- Orders received were MSEK 33 023 (24 246), organic growth of 36%
- Revenues were MSEK 27 824 (24 849), organic growth of 12%
- Operating profit was MSEK 6 000 (4 760), margin at 21.6% (19.2)
 - Adjusted operating profit at MSEK 6 109 (5 021), margin of 22.0% (20.2)
- Profit for the period was MSEK 4 557 (3 618)
- Basic earnings per share were SEK 3.74 (2.98)
- Operating cash flow at MSEK 4 664 (5 143)
- Return on capital employed was 27% (24)

Orders by business area and organic order development*

* Share of Group orders received 12 months ending September 2021.
3 month organic order development compared to previous year.

Compressor Technique

- Solid demand, organic order growth of 18%
 - Strong year-on-year growth for all equipment types
 - Continued growth for service year-on-year
 - Sequential order decline for equipment, service flat
- Record revenues, 7% organic increase
- Operating profit margin at 24.1% (23.0)
 - Driven by increased organic revenues
- ROCE at 94% (75)

Innovation:

A new range of oil-injected screw compressors, Alup Evolutio 30-45kW. Customers will benefit from higher energy efficiency, lower noise levels, and a reduced surface footprint.

Vacuum Technique

- Record orders and 93% organic growth
 - Strong year-on-year growth for semiconductor and industrial equipment
 - Continued growth for service
 - Sequential growth for semiconductor equipment
 - Industrial vacuum equipment orders below the strong previous quarter
- Revenues up 24% organically
- Operating profit margin at 24.1% (22.8)
 - Supported by volume and currency
 - Negatively affected by increased supply-chain related costs
- ROCE at 24% (19)

Innovation:

New variants of the Edwards iXM dry pumps with an extended applications coverage, offering reduced surface footprint, lower weight, and 30% more energy efficient vs. competing products.

Industrial Technique

- Organic order growth of 17%
 - Strong year-on-year growth for equipment to automotive and general industry
 - Continued growth for service
 - Sequential growth for equipment to general industry and service
 - Auto equipment below previous quarter
- Revenues increased 7% organically
- Operating margin at 20.7% (12.2, adjusted 15.9)
 - Driven by volume and mix
- ROCE at 15% (16)

Innovation:

A new dispensing system, Scheugenpflug DosPL DPL2001/DosP DP2001, offering high productivity, process reliability and accuracy in production of battery systems, electrical connectors components, and displays.

Power Technique

- Organic order growth of 23%
 - Strong year-on-year growth for equipment, specialty rental and service
 - Sequential growth for specialty rental, service orders unchanged
 - Equipment orders below previous quarter
- Revenues increased 13% organically
- Operating profit margin at 16.5% (14.0)
 - Supported by increased organic revenues, including mix, and currency
- ROCE at 25% (19)

Innovation:

A new range of portable compressors, the XAS 500 and LUY15, suitable for harsh working conditions and offers reduced fuel consumption compared to previous models.

Group total

July – September 2021 vs. 2020
