Item 12 – Proposal regarding remuneration to the Board of Directors and for committee work

Remuneration of SEK 1,750,000 (1,500,000) to the chairman, SEK 645,000 (550,000) to the vice chairman and SEK 525,000 (450,000) to each of the other six Board member not employed by the Company. Unchanged remuneration to the members of the Audit Committee of SEK 200,000 to the Chairman and SEK 125,000 to the other members of this committee. Unchanged remuneration of SEK 60,000 to each of the members of the Remuneration Committee and remuneration of SEK 60,000 to each Board member who, in addition to the above, participates in a committee in accordance with a decision of the Board of Directors.

Reflecting the ambition to further enhance the interest for the long term development of the Company, the Nomination Committee proposes that each nominated Board member shall have the possibility to choose between receiving 50% of the remuneration in the form of synthetic shares and the rest in cash and to receive the whole remuneration in cash. The proposal thus means that the total Board remuneration amounts to a sum of SEK 5,545,000 of which max SEK 2,772,500 can be in the form of synthetic shares.

For a decision in accordance with the proposal from the Nomination Committee the resolution must be supported by shareholders holding at least fifty percent of the votes cast at the Meeting.

The Board proposes, in agenda item 14 b), that the obligation of the Company to pay an amount corresponding to the synthetic shares shall be hedged through the purchase of own series A shares that later will be sold on the market in connection with the payment to the Board member in compliance with a request for mandate, in accordance with agenda item 14 d), that will be presented at that point in time. The economic difference for the Company if all Board members choose to receive a part of their fee in the form of synthetic shares compared to get the whole remuneration in cash is assessed to be very limited due to the hedging.

Item 16 – Nomination Committee

Proposal

a) that the Company shall have a nomination committee consisting of the chairman of the Board and a representative from each of the four largest shareholders in terms of voting rights. During the fourth quarter of 2011 the chairman of the Board shall contact the four largest by Euroclear Sweden AB directly registered or ownership grouped shareholders for the appointing of an owner representative. The names of the four owner representatives and the names of the shareholders they represent shall be made public latest six months prior to the Annual General Meeting 2012 and be based upon the known number of votes immediately prior to the publishing. The term of office of the nomination committee lasts until a new nomination committee has been appointed. The chairman of the nomination committee shall, unless the members otherwise agree, be the member who represents the shareholder with the largest number of votes.

b) that representatives who have been appointed by such shareholders who, during the term of the nomination committee, no longer belong to the group of four largest shareholders in terms of voting rights, shall cease to be members of the committee and the one, or those, shareholder(s) who has been added among the four shareholders with the largest voting rights shall appoint its/their representative(s). Unless there are special circumstances to the contrary, there shall be no change in the composition of the nomination committee if there are only marginal changes in the number of votes or a change occurs later than three months prior to the Annual General Meeting. A shareholder who has appointed a representative as member of the nomination committee can replace such representative with a new representative to be a member of the nomination committee. Every change in the composition of the nomination committee shall be made public as soon as it has taken place.

c) that the nomination committee shall prepare proposals to the Annual General Meeting 2012 regarding the following matters for decision:

Proposal regarding chairman for the Annual General Meeting, number of Board members, composition of the Board of Directors, chairman and vice chairman of the Board of Directors, remuneration to the chairman, vice chairman and other Board members not employed by the Company, compensation for committee work and the criteria for the selection of the nomination committee and decision points for the Annual General Meeting 2013.

d) that, in connection with its mission in general, the nomination committee shall fulfil those tasks that, according to the Swedish Code of Corporate Governance, are allocated to a nomination committee and that the Company, upon request from the nomination committee, shall provide resources like, for example, the secretary function in the nomination committee in order to facilitate the work of the committee. Upon request, the Company shall also carry such reasonable costs for external consultants who are deemed by the nomination committee to be required in order for the nomination committee to carry out its mission.

For a decision in accordance with the proposal from the nomination committee, the resolution must be supported by shareholders holding at least fifty percent of the votes cast at the Meeting.

Item 13 – The proposal of the Board of Directors regarding:

a) guiding principles for salary and other remuneration to senior executives

b) a performance stock option plan for 2011 that includes a requirement for the senior executives and division presidents to invest in shares as a prerequisite for participation in the plan; and

c) acquisition and transfer of shares

The proposals has been prepared by the Remuneration Committee

13 a) guiding principles for salary and other remuneration to senior executives

The term "senior executives" covers the President and the other seven members in the Group management team.

The proposal of the Board for 2011, which is in compliance with the principles of previous years and are based on agreements already entered into between Atlas Copco and respective employee, is as follows.

The remuneration to the senior executives shall consist of a base salary, variable compensation, long term incentive programs, pension premium and additional benefits. For expatriates certain other benefits apply in compliance with the Company's Conditions for Expatriate Employees.

The base salary reflects the position, qualification and individual performance.

The size of the variable compensation depends on the extent to which predetermined quantitative and qualitative goals are met. The variable compensation is limited to maximum

70% of the base salary for the President, to 50% for the Business Area Executives and to 40% for the other senior executives.

Pension premiums are paid in accordance with a premium based plan within a range of 25-35% of the base salary, depending on age. Additional benefits consist of Company car and private health insurance.

A mutual notice term of six months applies. The maximum compensation in case of termination of employment is 24 months base salary.

The Board reserves the right to deviate from these guiding principles if special reasons for such a deviation exist in an individual case.

13 b) performance stock option plan for 2011

In the opinion of the Board it is important, and it is also in the best interest of the shareholders, that key personnel in Atlas Copco have a long term interest in a good value development of the shares of the Company and align their performance in a manner that enhances such a development. In particular this applies to the group of key personnel that consists of the senior executives and the division presidents.

It is also the assessment of the Board that a share related option program increases the attractiveness of Atlas Copco on the global market and enhances the possibility to recruit and keep key personnel in the Group.

Scope and main principles

Granting

The Board asks for the right to decide on the issuing of performance stock options that can give a maximum of 280 key personnel in the Group the possibility to acquire a maximum of 3,363,910 Atlas Copco series A shares.

Issuing

The issuing is dependent on the value increase of the Group expressed as Economic Value Added (EVA) during 2011. In an interval of SEK 1,100,000,000 the issue varies linear from zero to 100% of the maximum number. The size of the plan and the limits of the interval have been established by the Board and is compatible with the long term business plan of the Company.

The issue of performance stock options is maximized to the following number per person within the respective key group:

category 1 – the President: 84,100 (117,500) options

category 2 – Business Area Executives (3): 42,050 (58,750) options

category 3 – other members of the Group management and division Presidents (24): 21,025 (29,375) options

category 4 – other key personnel (approx. 252): 10,512 (14,687) options

The Board shall decide which persons shall be included in the categories above based on position, qualification and individual performance. The issuing of options will take place not later than March 20, 2012.

The Board shall have the right to introduce an alternative incentive plan for key personnel in such countries where the granting of options is not feasible. Such alternative incentive solutions shall, to the extent possible, have terms and conditions corresponding to the ones applicable to the performance stock option plan 2011.

The term of the performance stock options/exercise

The term of the options shall be five years from the date of granting. The options are not transferable.

Exercise

The options are exercisable earliest three years from granting. The right to exercise only applies during the period a person is employed.

Exercise price

The exercise price shall be set to an amount corresponding to 110% of the average of the closing rates at NASDAQ OMX Stockholm of series A shares during a period of ten business

days next following the date of the publishing of the annual accounts (fourth quarter press release) for the year 2011 operations.

Maximized outcome

Any difference between exercise price and actual share price, amounting to more than 400% of exercise price, at time of settlement in cash, including SAR, will be disregarded.

Furthermore, an exercise for shares is maximised to equate to 400% of exercise price, by increasing the exercise price such that a difference between the increased exercise price and actual share price at time of transaction, equates to a maximum of 400%.

Recalculation

In case there should be a decision at an AGM regarding, for example, a reduction or increase of outstanding shares or a dividend beyond the dividend policy of the Company a recalculation can take place to preserve the value of the options.

A decision regarding such recalculation shall be taken by the Board of Directors.

Theoretical Value for the Recipient

A theoretical value on a personnel option has been established based on the Black & Scholes model for valuating options. As a base for the calculation, among other factors, has a market value of SEK 156.27 per share and an expected volatility of 30% been used. The theoretical value is calculated to amount to SEK 32.10 per personnel option or altogether maximum SEK 108 (109) million for the whole plan.

Requirement on senior executives and division presidents regarding own investment

As prerequisite for the participation of the senior executives and division presidents (28 persons) in the personnel stock option plan 2011 applies that they have invested maximum 10% of their respective base salary for 2011, before tax, in series A shares of the Company (20% for expatriates with net salary). The investment may be in cash or by pre-owned shares, however, not by shares that are obtained as part of the participation in the stock option plan for 2010.

The participation in the plan corresponds proportionally to the investment made. Those who have chosen to invest in series A shares will get, in addition to the proportional participation in the plan, the right to acquire, three years after the investment year, the number of shares (matching shares) that corresponds to the number of shares acquired under 2011 at a price of 75% of the market value upon which the exercise price for the shares in the 2011 plan was based, subject to continued employment and continued ownership of the shares. If the number of the acquired shares has been reduced, the right to matching shares is reduced on a share by share basis.

The theoretical value for this is calculated to be SEK 52.40 per matching share or together approximately SEK 2.8 million.

Delivery of shares and cost

The personnel options shall give the right to acquire already issued series A shares.

13 c) acquisition and transfer of series A shares of the Company in connection with the performance stock option plan 2011, including the share saving/matching share part

The Board proposes that the Board is granted the mandate to acquire and sell of series A shares as described in 14 a) and 14 c) below.

Item 14 – The proposal of the Board of Directors regarding:

- a) **acquire series A shares related to personnel option plan for 2011**
- b) **acquire series A shares related to remuneration in the form of synthetic shares**
- c) **transfer series A shares related to personnel option plan for 2011**
- d) **transfer series A shares to cover costs related to synthetic shares to the Board of Directors**
- e) **transfer of shares in connection with the performance stock option plans 2006, 2007, 2008 and 2009**

14 a) acquire shares related to personnel option plan for 2011

The Board proposes that the Board is granted the mandate until the next Annual General Meeting to decide, on one or more occasions, on the acquisition of shares in the Company as follows:

1. Acquisition of not more than 4,300,000 series A shares
2. The shares may only be acquired on NASDAQ OMX Stockholm
3. The shares may only be acquired at a price per share within the registered trading interval at any given point in time

The acquisition is made with the intention to limit the economic risk caused by an increase of the share value during the period the performance stock options remain outstanding, to be able to fulfil future delivery obligations under personnel option and matching share agreements, to cover alternative solutions and cash settlements as well as to cover, primarily, social charges.

14 b) acquire shares related to remuneration in the form of synthetic shares

The Board proposes that the Board is granted the mandate until the next Annual General Meeting to decide, on one or more occasions, on the acquisition of shares in the Company as follows:

1. Acquisition of not more than 70,000 series A shares
2. The shares may only be acquired on NASDAQ OMX Stockholm
3. The shares may only be acquired at a price per share within the registered trading interval at any given point in time

The acquisition is made with the intention to hedge the obligation of the Company to pay remuneration, including social charges, to Board members who have chosen to receive 50% of their remuneration in synthetic shares.

14 c) transfer of shares related to personnel option program for 2011

The Board further proposes that the Meeting decides to transfer shares in the Company in relation to the Company's personnel option plan 2011, including the share saving/matching share part, according to the following:

1. A maximum of 3,420,000 series A shares may be transferred. Right to acquire shares is to be granted to the persons participating in the Company's proposed performance stock option plan 2011, with a right for each participant to acquire the maximum number of shares stipulated in the terms and conditions of this plan. The participant's right to acquire shares is conditional upon all terms and conditions of the Company's performance stock option plan 2011 being fulfilled. Shares are to be transferred on the terms and conditions stipulated by the plan, meaning inter alia, that what is there stated regarding price and time during which the participants are to be entitled to use their right to acquire shares is also applicable to the transfer. Participants are to pay for the shares within the time and on the terms stipulated in the performance stock option plan 2011.
2. With respect to the number of shares that may be transferred under the Company's performance stock option plan, customary terms for recalculation as a result of bonus issue, share split, rights issues and similar measures apply in accordance with the terms and conditions of the plan.

As reason for the deviation from the shareholders right of first refusal and as the base for the transfer price in connection with the transfer of own shares, the Board states that the transfer of own shares is a part of the proposed performance stock option plan for 2011.

14 d) transfer of shares to cover costs related to synthetic shares to the Board of Directors

The Board proposes that the Board is granted the mandate until the next Annual General Meeting to decide, on one or more occasions, to transfer not more than 70,000 series A shares in the Company to cover the costs of giving a counter value of earlier issued synthetic shares to previous Board members, and to, primarily, cover social charges.

Shares proposed to be transferred where acquired based on mandates given at the Annual General Meeting respective year to acquire the share for the stated purpose. The sale shall take place on NASDAQ OMX Stockholm at a price within the registered price interval at any given time.

As reason for the deviation from the shareholders right of first refusal and as the base for the transfer price in connection with the transfer of own shares, the Board states that the transfer of own shares is a part of the previously adopted performance stock option plans

Item 14 e) – transfer of shares in connection with the performance stock option plans 2006, 2007, 2008 and 2009

The Board proposes that the Board is granted the mandate until the next Annual General Meeting to sell, at one or more occasions, maximum 1,500,000 series B shares in connection with the exercise of rights under the 2006 and 2007 stock option plans and maximum 4,700,000 series A shares, in connection with the exercise of rights under the 2008 and 2009 performance stock option plans in order to cover costs, primarily cash settlements in Sweden, SAR and social costs. Shares proposed to be transferred where acquired based on mandate given at the Annual General Meeting respective year to acquire the share for the stated purpose.

The sale shall take place on NASDAQ OMX Stockholm at a price within the registered price interval at any given time.

As reason for the deviation from the shareholders right of first refusal and as the base for the transfer price in connection with the transfer of own shares, the Board states that the transfer of own shares is an integrated part of the previously adopted performance stock option plans.

For a decision by the Board in accordance with the proposal, the resolution must be supported by shareholders holding at least two-thirds of the votes cast as well as of the shares represented at the Meeting.

In order for the resolutions by the Meeting in accordance with the Board's proposal under 14 a), b), d) and e) above to be adopted, the resolutions must be supported by shareholders holding at least two-thirds of the votes cast as well as of the shares represented at the Meeting and for decisions in accordance with the proposals from the Board under 14 c) it is required that at least nine tenths of both the votes cast and of the shares represented at the Meeting. Should this majority vote not be achieved, the intention of the Company is to hedge the financial exposure and secure delivery of shares by entering into an equity swap agreement with a financial institution.

Item 15 - Proposal for a decision regarding a split and an automatic redemption procedure (As per March 15, 2011, the Company holds 15,737,289 shares)

Background

Atlas Copco has generated significant cash flows both during the financial crisis and during the fast growth of 2010. Consequently, the Company has a strong financial position. In order to adjust the Group's balance sheet to a more efficient structure and, at the same time, maintain the flexibility for further growth, the Board of Directors proposes to the Annual

General Meeting an automatic share redemption procedure, by a so called share split of 2:1. Every old share will be split into two new shares. One of those shares will be automatically redeemed at SEK 5 per share. This corresponds to a total of SEK 6,069,379,075 that the shareholders will receive in addition to the proposed ordinary dividend of SEK 4 per share. The Board of Directors also propose that, in order to quickly and efficiently transfer redemption to the shareholders, that the share capital of the Company is increased by SEK 393,004,095 by way of a bonus issue.

In view hereof, the Board proposes that the Annual General Meeting resolves in accordance with the following proposal.

15 a) Change of articles of association

The Board proposes that the wording of the Articles of Association (§ 4) be amended, to the principal effect that

- (i) the number of shares that may be issued by the Company is increased from a minimum of 500,000,000 and a maximum of 2,000,000,000 to a minimum of 1,000,000,000 and a maximum of 4,000,000,000, and that
- (ii) the number of shares that may be issued of series A be changed from a maximum of 2,000,000,000 to a maximum of 4,000,000,000 and that the number of shares that may be issued of series B be changed from a maximum of 2,000,000,000 to a maximum of 4,000,000,000
- (iii) the words “not later than 4 p.m.” in §9 will be removed to better comply with the Swedish Company Act.

15 b) Share split

The Board proposes that the quota value of the share (the share capital divided by the number of shares) is changed by way of a share split, so that each share (irrespective of the Series of shares) is divided into two shares, of which one is to be named redemption share in the Euroclear system and be redeemed in the manner described under c) below. The record day at Euroclear Sweden AB (the Swedish Central Security Depository) for implementation of the share split is to be May 13, 2011. After implementation of the share split, the number of shares in the Company will increase from 1,229,613,104 to 2,459,226,208, of which 1,678,788,192 are series A shares and 780,438,016 are series B shares, each share with a quota value of approximately SEK 0.3196.

15 c) Reduction of the share capital by redemption of A-shares and B-shares

The Board proposes that the Company’s share capital be reduced by SEK 393,004,095 (the reduction amount) by way of redemption of 1,229,613,104 shares, of which 839,394,096 are series A shares and 390,219,008 are series B shares. The shares that are to be redeemed are the shares that, after share split in accordance with item b) above, are named redemption shares in the Euroclear system, whereby the record day for the right to receive redemption shares according to b) above is to be May 13, 2011.

The purpose of the reduction of the share capital is repayment to the shareholders and, to the extent that the reduction of the share capital is implemented by way of redemption of shares held by the Company, for transfer to a fund to be used in accordance with the General Meeting’s decision.

For each redeemed share (irrespective of the series of shares) a redemption amount of SEK 5 will be paid, of which approximately SEK 4,68 exceeds the quota value of the share. However, no payment is to be made in respect of redeemed shares held by the Company. The total redemption amount is calculated to an amount of SEK 6,069,379,075. In addition to the reduction amount, a total amount of SEK 5,676,374,980 will be distributed, by use of the Company’s non-restricted equity. The redemption price is to be paid as soon as possible, however not later than ten banking days after the day of registration of all resolutions under a) – d) with the Swedish Companies Registration Office.

Following the reduction of the share capital, the Company's share capital will amount to SEK 393,004,095 divided on, in total 1,229,613,104 shares, of which 839,394,096 are series A shares and 390,219,008 are series B shares, each share with a quota value of approximately SEK 0.3196. Apart from the reduction of the share capital, the Company's restricted shareholders' equity will not be affected.

In its statement pursuant to Chapter 20, Section 13, fourth paragraph of the Swedish Companies Act, the Board of Directors states the following. The resolution on reduction of the share capital for repayment to the shareholders by redemption of shares according to c) above may be implemented without obtaining the Swedish Companies Registration Office's or a general court's permission, since the Company at the same time implements a bonus issue according to d) below, as a measure with the object that neither the Company's restricted shareholders' equity, nor its share capital be reduced. The effect of the reduction of the share capital and the bonus issue on the Company's restricted shareholders' equity and the share capital is present, as concerns the reduction, in the preceding paragraph and, as concerns the bonus issue, in d) below.

15 d) increase of the share capital by way of a bonus issue

The Board further proposes that the General Meeting resolves that the Company's share capital be increased by way of a bonus issue of SEK 393,004,095 to SEK 786,008,190, by a transfer of SEK 393,004,095 from the Company's non-restricted equity. No new shares are to be issued in connection with the bonus issue.

The number of shares of the Company will, after implementation of the increase of the share capital, be 1,229,613,104, of which 839,394,096 are series A shares and 390,219,008 are series B shares, each share with a quota value of approx. SEK 0.6394.

The resolutions by the General Meeting in accordance with a) – d) above are to be adopted as one single resolution. In order for a resolution by the General Meeting to be valid, the resolution must be supported by shareholders holding at least two thirds of the votes cast as well as the shares represented at the General Meeting.

The Board proposes that the General Meeting gives the Company President mandate to make smaller adjustments regarding this item, which may be required to register the shareholders decision to the Swedish Companies Registration Office and Euroclear Sweden AB.
