

# Surface Drilling Equipment Division

Atlas Copco Capital Markets Day, November 20, 2007

Stephan Kuhn, Division President

## Our business

Pneumatic and hydraulic drill rigs for the construction and mining industries

ROC 600 with separated rotated rock drill BBE 57 predecessor  
ROC 600 was the first AC crawler drill, introduced in 1964.

ROC 810H  
The first Atlas Copco hydraulic crawler drill rig, introduced in 1977.

## LM 100 vs. CM 470 LC in medium hard Granite

**TOTAL – 1 unit per shift**

- Drilling rate – 21 m/hr
- Crew – 1 operator
- Diesel – 14 l/hr

**TOTAL – 3 units per shift**

- Drilling rate – 21 m/hr
- Crew – 9 operators
- Diesel – 63 l/hr

For one shift operation

## Growth

- Global leader for percussive surface drilling equipment
- 12 M Order Intake has doubled since 2004
- Market share is stable

Sales LTM

Top Three Market Players:

No 1: Atlas Copco

No 2: Tamrock

No 3: Furukawa

## SMARTRIG™

- **Productivity:**
  - Automatic drilling by
    - Automatic feed alignment
    - Automatic rod adding system
    - GPS assisted hole navigation
- **Documentation:**
  - Efficient planning process
  - Streamlining the drilling and blasting process
  - Automatic hole documentation
- **Environment**
  - Less risk for oil spillage
  - Less noise - Silenced ROC
  - Lower fuel consumption

---

---

---

---

## Efficiency

- **Outsourcing of Power Pack Assembly to Irmer & Elze**
  - Cost neutral
  - Completed by October 2007
  - Effect
    - 10% of blue collars
    - 20% less of total WIP
    - From 650 to 60 article numbers
    - Payment when rig leaves the line

---

## Trends & Outlook

- Construction markets are still growing except the US market
- Most Mining markets continue to be robust
- Our growth is expected to continue but on more moderate level
  
- Shortage of technical hands (technicians and engineers) in certain markets will worsen
- Cost of ownership concept becomes key buying criteria for decision makers
