11 November 15, 2018 Atlas Copco Capital Markets Day

January – September in brief

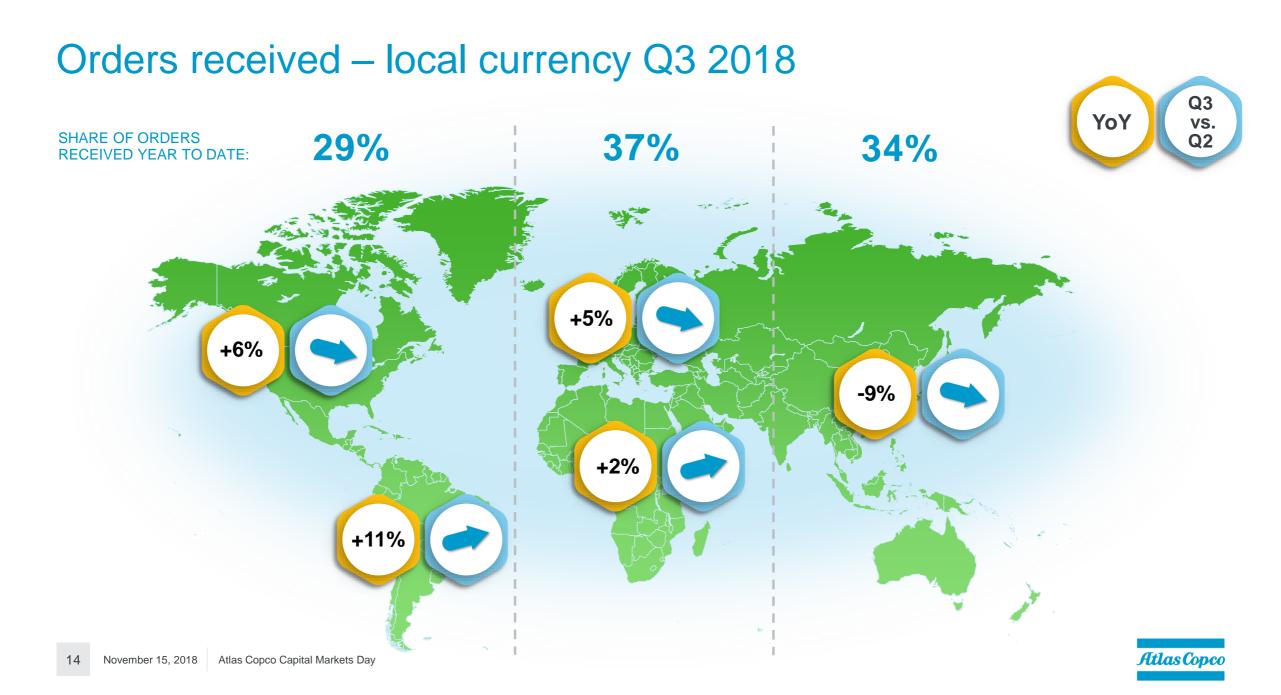

- Solid order growth
 - Particularly strong growth in North America and Europe
 - Firm organic growth for Compressor Technique, Industrial Technique and Power Technique
 - Vacuum Technique down due to lower semiconductor investments
- Good profitability in all business areas
- Steady operating cash flow, in spite of growth
- Successful spin-off of Epiroc

The customer demand is expected to be somewhat lower, mainly due to the semiconductor and automotive industries.

- Digitalization embedded in everything

28

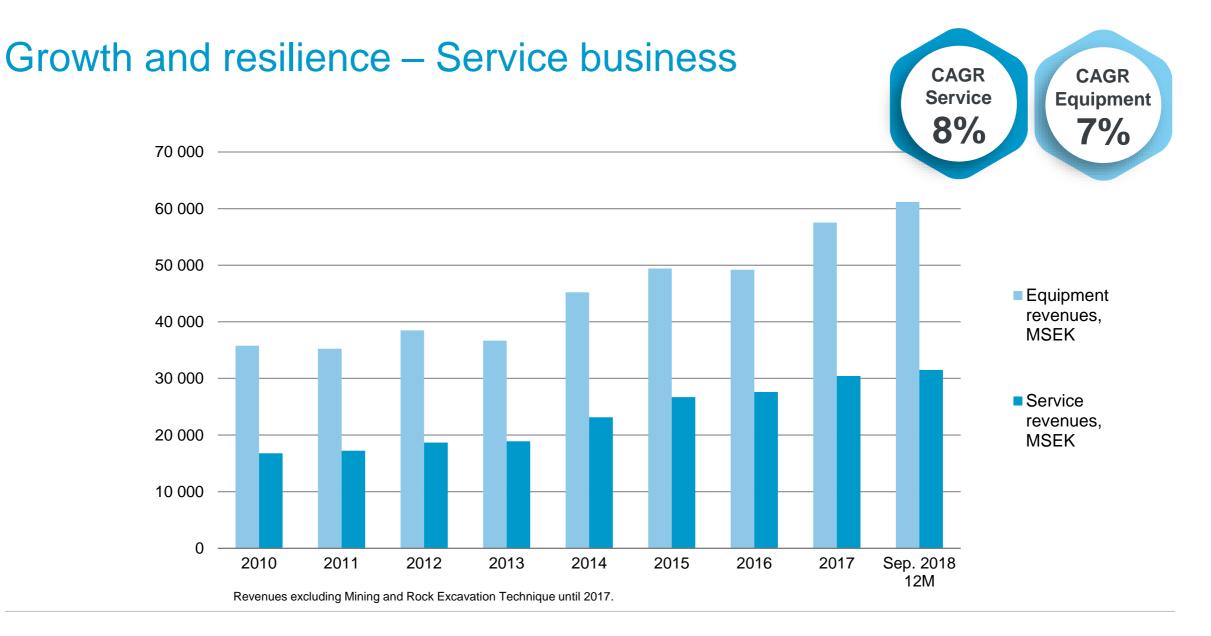

Growth and strong profitability

*Revenues not adjusted for intercompany sales between Atlas Copco and Epiroc.

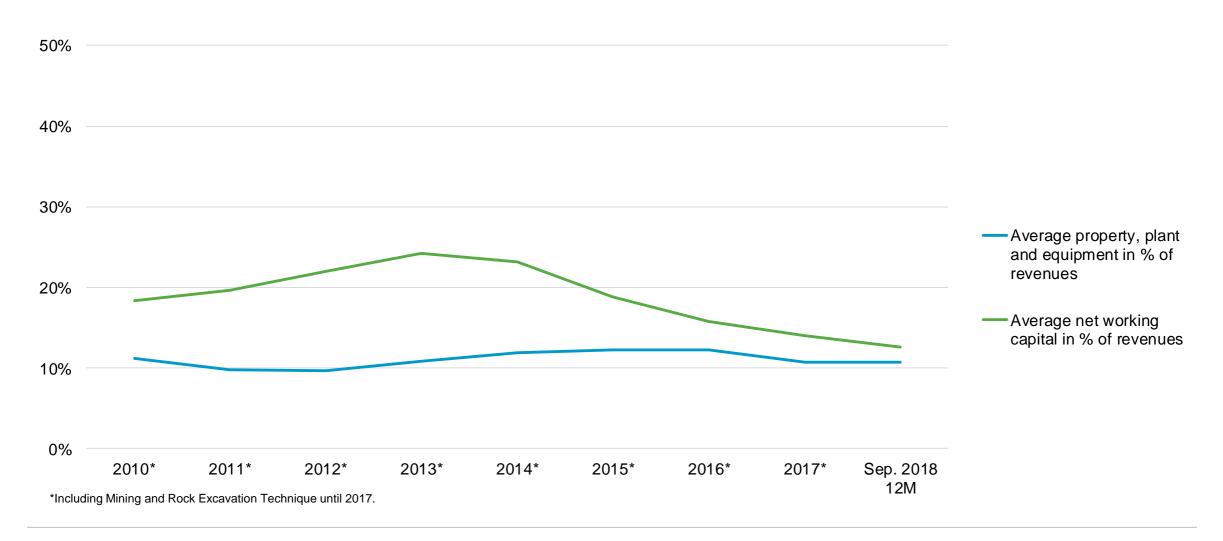

Operating margin and ROCE are estimated excluding the Mining and Rock Excavation Business Area and Road Construction Equipment division.

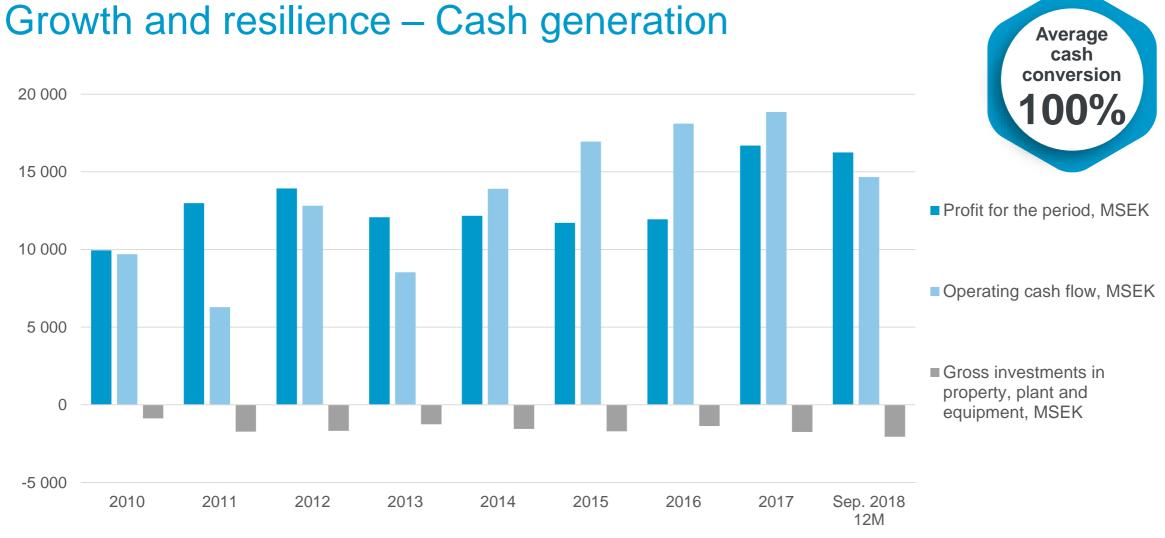

Growth and resilience – Asset light

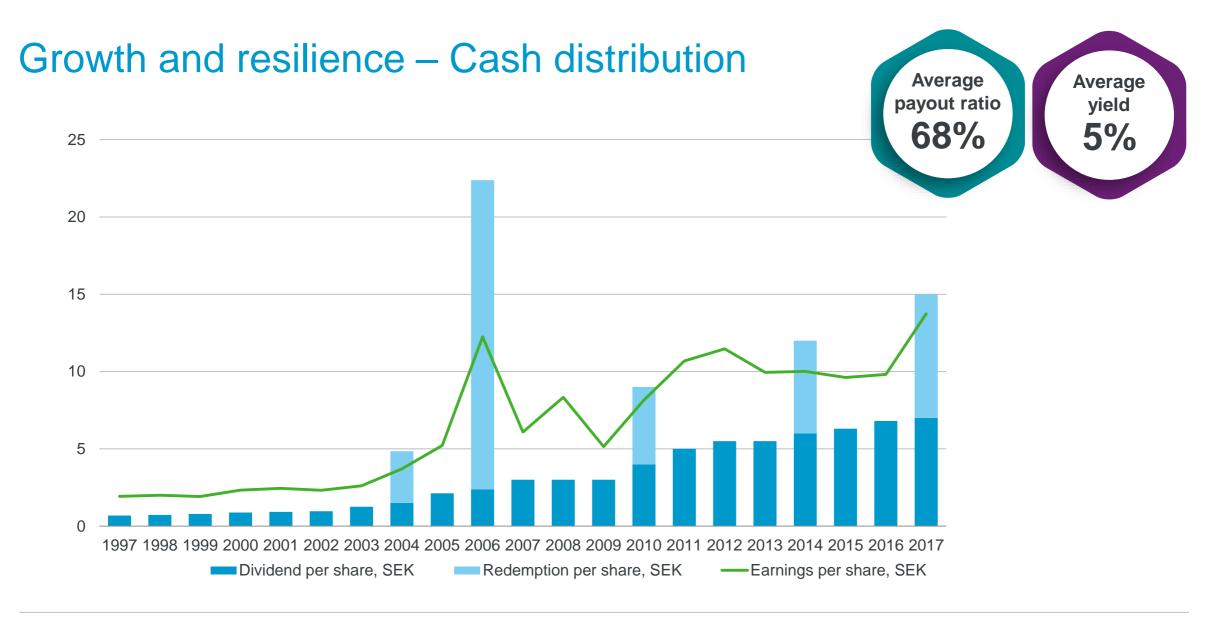

31

Including discontinued operations. Profit for the period "Sep. 2018 12M" is excluding the capital gain related to the distribution of Epiroc.

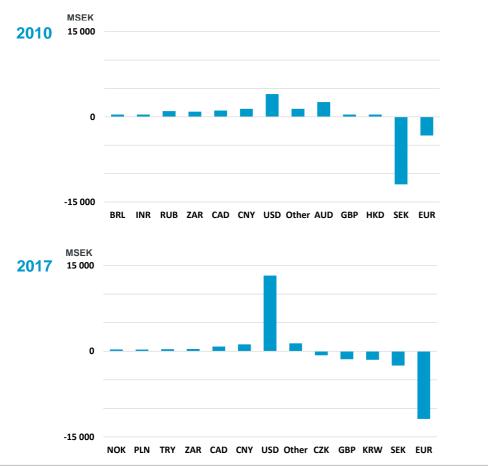

Regional growth development – from 70 to 93 BSEK

ESTIMATED OPERATIONAL TRANSACTION EXPOSURE

CURRENCY INDEX

Impact of tariffs

Estimated cost impact: MUSD 15 per year Majority of impact is on supply from Atlas Copco China to Atlas Copco US

• The main mitigating actions include changed sourcing countries and price increases

Impact of "hard" Brexit

Estimated cost impact: MUSD 13 per year

- The direct cost impact is mainly related to tariffs on goods moving in and out of the UK
- Other costs relate to:
 - One to two days longer lead time due to border controls
 - Additional personnel resources to handle issues with VAT, trade compliance, and logistics
 - Build up of safety stocks

• Over time a slower GDP growth in the UK is expected
