Atlas Copco Third-quarter report 2023

Solid orders, record revenues and operating profit

The comparison figures presented in this report refer to previous year unless otherwise stated.

Third quarter

- Orders received increased 5% to MSEK 42 606 (40 555), organic decline of 1%
- Revenues increased 17% to MSEK 44 485 (38 074), organic growth of 10%
- Operating profit reached MSEK 10 117 (8 378), corresponding to a margin of 22.7% (22.0)
 - Adjusted operating profit, excluding items affecting comparability, was MSEK 10 110 (8 469), corresponding to a margin of 22.7% (22.2)
- Profit before tax amounted to MSEK 9 928 (8 448)
- Basic earnings per share were SEK 1.60 (1.34)
- Operating cash flow at MSEK 6 581 (5 705)
- Return on capital employed was 30% (29)

MSEK	July - September			January - September		
	2023	2022		2023	2022	
Orders received	42 606	40 555	5%	133 784	121 944	10%

*Operating profit excluding amortization of intangibles related to acquisitions.

Near-term demand outlook

Atlas Copco expects that the customers' activity level will weaken compared to the third quarter.

Previous near-term demand outlook (published July 19, 2023):

Atlas Copco expects that the customer activity level will weaken somewhat compared to the current high level.

Summary of nine-month results

Orders received in the first nine months of 2023 increased by 10% to MSEK 133 784 (121 944). Acquisitions contributed with 5% and currency had a positive effect of 5%. Organically, order volumes were unchanged. Revenues increased by 26% to MSEK 127 710 (101 271), corresponding to an 15% organic increase.

Operating profit increased by 25% to MSEK 28 005 (22 406). The operating margin was 21.9% (22.1). Adjusted for items affecting comparability, the margin was 22.1%

(21.8). The positive impact of changes in exchange rates was MSEK 1 060.

Profit before tax was MSEK 27 609 (22 424), corresponding to a margin of 21.6% (22.1). Profit for the period totaled MSEK 21 272 (17 427). Basic and diluted earnings per share were SEK 4.37 (3.58) and 4.36 (3.57) respectively.

Operating cash flow before acquisitions, divestments and dividends totaled MSEK 14 393 (11 169).

Review of the third quarter

Market development

The overall order intake for the Atlas Copco Group's products and services was strong. Order volumes remained basically at the same high level as the previous year. Sequentially, and compared to the previous quarter, however, order volumes were somewhat down.

Year-on-year, orders grew for large industrial compressors, while order volumes for smaller industrial compressors and gas and process compressors were unchanged. Order volumes for vacuum equipment decreased markedly, primarily but not exclusively, driven by the significantly lower demand from the semiconductor industry. The order intake for industrial assembly and vision solutions was basically unchanged, while orders for power and flow equipment increased, driven by increased demand for generators, industrial pumps and energy systems. The specialty rental business achieved solid order growth in the quarter, and order volumes for service increased in all business areas.

In total, the order intake increased in Europe and Asia but was unchanged in North America.

Orders, revenues, and operating profit margin

Revenues, profits and returns

Revenues increased 17% to record MSEK 44 485 (38 074), corresponding to an organic growth of 10%. Currency had a positive effect of 3%, and acquisitions added 4%.

The operating profit increased 21% to record MSEK 10 117 (8 378) and includes a change in provision for share related long-term incentive programs, reported in Common Group Items of MSEK +7 (-91).

Adjusted operating profit increased 19% to MSEK 10 110 (8 469), corresponding to a margin of 22.7% (22.2). The main explanation for the higher margin was increased organic revenues.

Net financial items amounted to MSEK -189 (70) whereof interest net at MSEK -143 (-46). The increased interest cost was mainly a result of higher interest rates. Other financial items, including financial exchange differences, were MSEK -46 (116). Profit before tax amounted to MSEK 9 928 (8 448), corresponding to a margin of 22.3% (22.2). Corporate income tax amounted to MSEK -2 125 (-1 912), corresponding to an effective tax rate of 21.4% (22.6). The lower effective tax rate compared to the previous year was due to fewer negative one-offs compared to average.

Profit for the period was MSEK 7 803 (6 536). Basic and diluted earnings per share were SEK 1.60 (1.34) and SEK 1.60 (1.34), respectively.

The return on capital employed during the last 12 months was 30% (29). Return on equity was 32% (32). The Group uses a weighted average cost of capital (WACC) of 8.0% as an investment and overall performance benchmark.

Operating cash flow and investments

Operating cash surplus increased to MSEK 11 926 (9 937). Net financial items and taxes paid amounted to MSEK -2 474 (-1 885). Working capital increased by MSEK 963, mainly due to decreased payables (increase of 665). Net investments in rental equipment were MSEK -507 (-204). Net investments in property, plant, and equipment, were MSEK -967 (-977).

Operating cash flow (an important internal KPI, but not an IFRS measurement, and hence defined on page 13) reached MSEK 6 581 (5 705).

Net indebtedness

The Group's net indebtedness amounted to MSEK 25 293 (24 622), of which MSEK 2 324 (1 784) was attributable to post-employment benefits. The Group's interest-bearing liabilities have an average maturity of 4.9 years. The net debt/EBITDA ratio was 0.6 (0.7) and the net debt/equity ratio was 27% (32).

Acquisition and divestment of own shares

During the quarter, 229 432 series A shares, net, were sold for a net value of MSEK 34. These transactions are in accordance with mandates granted by the Annual General Meeting and relate to the Group's long-term incentive programs. See page 17.

Employees

On September 30, 2023, the number of employees was 52 179 (47 986). The number of consultants/external workforce was 3 280 (3 935). For comparable units, the total workforce increased by 2 160 from September 30, 2022.

*Volume, price and mix.

Industrial compressors

Order volumes for small and medium-sized compressors remained about the same level as the previous year, while the order intake for large-sized industrial compressors grew in the quarter. Sequentially, order volumes for industrial compressors decreased compared to the previous quarter.

Geographically and compared to the previous year, the order intake increased in Europe and Asia but decreased in North America.

Gas and process compressors

The demand for gas and process compressors was strong, and order volumes remained at the same high level as the previous year. Sequentially, the order intake increased, supported by increased demand from several customer segments.

Year-on-year, the order intake increased in most regions except Asia where orders were down.

Compressor service

The demand for service remained strong, and solid order growth was achieved in most regions.

Innovation

The business area launched a new turboexpander for hydrogen liquefaction, the H2ECM. The new product is designed to handle extreme low temperatures with minimal heat leak. In addition, thanks to high rotating speeds and a patented seal gas configuration, refrigeration is maximized.

Revenues and profitability

Revenues increased 19% to record MSEK 19 493 (16 377), corresponding to an organic increase of 14%.

The operating profit also reached a record at MSEK 4 856 (3 963), corresponding to a margin of 24.9% (24.2). The higher margin was mainly due to increased organic revenues. Currency, sales mix, and dilution from acquisitions had a negative effect on the margin. Return on capital employed (last 12 months) was 82% (83).

Orders, revenues and operating profit margin

*Volume, price and mix.

Semiconductor and flat panel display equipment

Equipment demand from the semiconductor and flat panel display industry decreased noticeably due to lower investment activity among most customers. Consequently, the order intake decreased markedly compared to the previous year. The order intake also decreased compared to the previous quarter.

Geographically and compared to the previous year, order volumes decreased in all major regions.

Industrial and scientific vacuum equipment

The order intake for industrial and scientific vacuum equipment decreased compared to the previous year and sequentially. The negative year-on-year order development was due to lower demand for equipment to both industrial and scientific vacuum applications.

Year-on-year, the order intake decreased in most regions.

Vacuum service

The order intake for service increased, and order growth was achieved in most regions.

Innovation

A new turbomolecular pump for the flat panel display industry was launched, the Edwards STP-iXA4507. The new pump offers the highest levels of gas throughput in a small format, and thanks to innovative rotor temperature sensing, it allows safe management of high flows of process gas, increasing customer productivity.

Acquisitions

In the quarter, the business area completed the acquisition of ZEUS Co., Ltd. a Korean distributor and service provider. The acquired business provides service and sales distribution for the Vacuum Technique business area's cryopump products in South Korea and has 59 employees.

Revenues and profitability

Revenues reached MSEK 10 802 (10 781), corresponding to an organic decline of 4%. The operating profit was MSEK 2 465 (2 484), corresponding to a margin of 22.8% (23.0). Currency had a minor positive effect on the margin, while dilution from acquisitions affected the margin negatively. Return on capital employed (last 12 months) was 22% (25).

*Volume, price and mix.

Automotive industry

The order intake for industrial assembly and vision solutions for the automotive industry remained at about the same level as the previous year. Sequentially, however, the order volumes decreased, primarily due to lower investment activity among customers in Europe and Asia.

Year-on-year, orders increased in Europe, but decreased in Asia and North America.

General industry

Orders for industrial assembly and vision solutions for the general industry increased. The year-on-year growth was supported by increased demand from several customer segments, for example off-highway, aerospace, and vision applications for advanced material. Sequentially, the order intake decreased.

Compared to the previous year, the order intake increased in most regions.

Service

The demand for service remained high and solid order growth was achieved in most regions.

Innovation

A new range of hydraulic wrenches, the Atlas Copco TorcFlex, was introduced for the energy segment, e.g. the wind turbine industry. Typical applications would be the opening and closing of critical bolted flanges during maintenance and construction work, where robustness, reliability, timesaving, and safety are crucial customer needs.

Acquisitions

In the quarter, the business area acquired Extend3D GmbH, a German developer of augmented reality solutions providing worker guidance for industry customers using laser and video projection. The company has 16 employees and had revenues of approximately MSEK 32 in 2022.

Revenues and profitability

Revenues increased 24% to MSEK 7 306 (5 911), corresponding to an organic increase of 19%.

The operating profit increased 30% to record MSEK 1 647 (1 267), corresponding to a margin of 22.5% (21.4). The main explanation for the higher margin was increased revenues. Currency had a negative effect on the operating margin. Return on capital employed (last 12 months) was 20% (18).

Equipment

The overall demand for equipment such as portable compressors, generators, energy storage systems, and industrial pumps increased somewhat. Order volumes increased compared to the previous year and were driven by higher order volumes of industrial pumps and energy storage systems. Sequentially, the order intake for equipment decreased.

Geographically and compared to the previous year, the order intake increased in Asia and Europe but decreased in North America.

Specialty rental

The demand for the specialty rental business remained strong, and solid order growth was achieved compared to the previous year. Orders also grew sequentially.

Year-on-year, the order intake increased in all regions.

Service

Order volumes for service continued to increase with higher order intake in most regions.

Innovation

A new range of portable compressors for geothermal- and foundation drilling was introduced in the quarter, the X-AIR+ 750-25, 1200-40. The new products are 10% more efficient, drill with higher pressure, and have better fuel economy than previous models.

Acquisitions

In the quarter, Climorent was acquired, a specialty rental provider of industrial cooling solutions based in Spain. The acquired business has 15 employees and had revenues of approximately MSEK 21 in 2022.

Revenues and profitability

Revenues increased 37% to record MSEK 7 142 (5 207), corresponding to an organic increase of 18%. Acquisitions contributed with 15%.

The operating profit also reached a record and increased 45% to MSEK 1 429 (983), corresponding to a margin of 20.0% (18.9). The main explanation for the higher operating margin was increased organic revenues. Currency had a negative effect on the margin. Return on capital employed (last 12 months) was 22% (27).

Orders, revenues and operating profit margin

Accounting principles

The consolidated accounts of the Atlas Copco Group are prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU. The description of the accounting principles and definitions applied in this report are found in the Annual Report 2022. The interim report is prepared in accordance with IAS 34 Interim Financial Reporting. Non-IFRS measures are also presented in the report since they are considered to be important supplemental measures of the company's performance. For further information about these measures and how they have been calculated, please visit: <https://www.atlascopcogroup.com/en/investor-relations/key-figures>

Risks, risk management and factors of uncertainty

Atlas Copco's global and diversified business is active within many customer segments and results in a variety of risks and opportunities geographically and operationally. Thus, the ability to identify, analyze and manage risks is crucial for effective governance and control of the business. The aim is to meet the Group's goals with a high awareness of risks and well-managed risk taking. Atlas Copco sees the benefits of an efficient risk management both from risk reduction and business opportunity perspectives, which can lead to good business growth.

Risks in Atlas Copco are identified in a 360-degree spectrum, meaning that both internal, and external exposures are assessed including today's circumstances and future changes. The Group's risk management approach follows the decentralized structure of Atlas Copco. Risks are analyzed and addressed in an integrated way. Local companies are responsible for their own risk management, which is monitored and followed up regularly at for example local business board meetings. Group functions responsible for legal, insurance, human resources, compliance, sustainability, treasury, tax, controlling and accounting provide policies, guidelines and instructions regarding risk management.

Risk areas include compliance risks, external exposure risks, including pandemics, operational risks and strategic risks. These risk areas can impact the business negatively both in the long and short term, but often also create business opportunities if managed well. Examples of risks and how they are handled is described below.

Market risks

The demand for Atlas Copco's equipment and services is affected by changes in the customers' investment and production levels. A general economic downturn, geopolitical tensions, pandemics, changes in trade agreements, trade sanctions, a widespread financial crisis and other macroeconomic disturbances may, directly or indirectly, affect the Group negatively both in terms of revenues and profitability. However, the Group's sales are well diversified with customers in many industries and countries around the world, which mitigates the risk.

Financial risks

Atlas Copco is subject to currency risks, funding risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco has adopted a policy to control the financial risks to which the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

Production risks

A large part of the components used in production are sourced from sub-suppliers. The availability is dependent on the sub-suppliers and if they have interruptions or lack capacity, this may adversely affect production. To minimize these risks, Atlas Copco has established a global network of sub-suppliers, which means that in most cases there are more than one sub-supplier that can provide a certain component. Atlas Copco is also directly and indirectly exposed to raw material prices. Cost increases for raw materials and components often coincide with strong end-customer demand and can partly be compensated for by increased sales prices.

Acquisitions

Atlas Copco has the ambition to grow all its business areas, primarily through organic growth, complemented by selected acquisitions. The integration of acquired businesses is a difficult process and it is not certain that every integration will be successful. Therefore, costs related to acquisitions can be higher and/or synergies can take longer to materialize than anticipated.

Risks related to the war in Ukraine

Atlas Copco's financial exposure to Russia and Ukraine is limited. During 2022, revenues from Russia accounted for less than 1% of the Group's total revenues. Ukraine accounted for well below 0.1% of the Group's total revenues. Further, Atlas Copco has no production units in Russia or Ukraine. Hence the ongoing war has very limited direct financial effects on Atlas Copco. Given the uncertainties surrounding the ongoing conflict, it is very difficult to predict potential indirect effects on Atlas Copco. As of September 30, 2023, there is no significant impact on any balance sheet items.

Change regarding European Commission's decision on Belgium's tax rulings

On September 20, 2023, the General Court of the European Union (EGC) ruled in favor of the European Commission, confirming the Commission's decision from 2016 that Belgian tax rulings granted to companies regarding "Excess Profit" shall be considered as illegal state aid. Atlas Copco and the other 38 Belgian companies affected by this ruling plus the Belgian government have until November 30, 2023, to decide if they appeal the decision to the European Court of Justice (ECJ). During 2015-2017, Atlas Copco paid and expensed the full costs of MEUR 313 related to the Commission's decision.

For more information on Atlas Copco's risk management process and further descriptions of risks and how they are handled, see the Annual Report 2022.

Forward-looking statements

Some statements in this report are forward-looking, and the actual outcome could be materially different. In addition to the factors explicitly discussed, other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialization and technological difficulties, interruptions in supply, and major customer credit losses.

Atlas Copco AB

Atlas Copco AB and its subsidiaries are sometimes referred to as the Atlas Copco Group, the Group or Atlas Copco. Atlas Copco AB is also sometimes referred to as Atlas Copco. Any mentioning of the Board of Directors, the Board or the Directors refers to the Board of Directors of Atlas Copco AB.

Fair value of derivatives, cash equivalents and borrowings

The carrying value and fair value of the Group's outstanding derivatives, liquidity funds and borrowings are shown in the tables below. The fair values of bonds are based on level 1 and the fair values of derivatives, liquidity funds and other loans are based on level 2 in the fair value hierarchy. Compared to 2022, no transfers have been made between different levels in the fair value hierarchy for derivatives and borrowings and no significant changes have been made to valuation techniques, inputs or assumptions. Liquidity funds, reported under cash equivalents, are according to IFRS 9 classified at fair value through profit and loss. For further information, see note 27 in the Annual Report 2022.

*Annual revenues and number of employees at time of acquisition/divestment. No revenues are disclosed for former Atlas Copco distributors.

Due to the relatively small size of most of the acquisitions made in 2023, full disclosure as per IFRS 3 is not given in this interim report.

Disclosure on an aggregated level will be given in the Annual Report 2023. See the Annual Report for 2022 for disclosure of acquisitions made in 2022.

Accounting principles

Atlas Copco AB is the ultimate Parent Company of the Atlas Copco Group. The financial statements of Atlas Copco AB have been prepared in accordance with the Swedish Annual Accounts Act and the accounting standard RFR 2, Accounting for Legal Entities. The same accounting principles and methods of computation are followed in the interim financial statements as compared with the most recent annual financial statements. See also accounting principles, page 8.

Parent Company

Distribution of shares

Share capital equaled MSEK 786 (786) at the end of the period, distributed as follows:

Class of share	Shares
A shares	3 357 576 384
B shares	1 560 876 032
Total	4 918 452 416
- of which A shares held by Atlas Copco	45 243 511
- of which B shares held by Atlas Copco	-
Total shares outstanding, net of shares held by Atlas Copco	4 873 208 905

Performance-based personnel option plan

The Annual General Meeting 2023 approved a performance-based long-term incentive program. For Group Management and division presidents, the plan requires management's own investment in Atlas Copco shares. The intention is to cover Atlas Copco's obligation under the plan through the repurchase of the company's own shares. For further information, see www.atlascopcogroup.com/agm

Transactions in own shares

Atlas Copco has mandates to acquire and sell own shares as per below:

- Acquisition of not more than 14 810 000 series A shares, whereof a maximum of 10 450 000 may be transferred to personnel stock option holders under the performance-based stock option plan for 2023.
- Acquisition of not more than 60 000 series A shares to hedge the obligation of the company to pay remuneration to board members who have chosen to receive 50% of the remuneration in synthetic shares.

- The sale of not more than 60 000 series A shares to cover costs related to previously issued synthetic shares to board members.
- The sale of a maximum 33 000 000 series A shares currently held by the company, for the purpose of covering costs of fulfilling obligations related to the option plans 2017, 2018, 2019, and 2020.
- The shares may only be acquired or sold on NASDAQ Stockholm at a price within the registered price interval at any given time.

During the first nine months in 2023, 4 851 940 series A shares, net, were sold. These transactions are in accordance with mandates granted. The company's holding of own shares at the end of the period appears in the table to the left.

Risks and factors of uncertainty

Financial risks

Atlas Copco AB is subject to currency risks, funding risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco has adopted a policy to control the financial risks to which Atlas Copco AB and the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

For further information, see the Annual Report 2022.

Related parties

There have been no significant changes in the relationships or transactions with related parties for the Group or Parent Company compared with the information given in the Annual Report 2022.

Nacka, Sweden October 25, 2023

Atlas Copco AB (publ)

This is Atlas Copco

Atlas Copco Group is a world-leading provider of sustainable productivity solutions, demanded by all types of industries, enabling everything from industrial automation to reliable medical air solutions. The Group offers innovative compressors, air treatment systems, vacuum solutions, industrial power tools and assembly systems, machine vision, and power and flow solutions. Atlas Copco develops products and services focused on productivity, energy efficiency, safety and ergonomics, supported by insights from connected products. The company was founded in 1873, is based in Nacka, Sweden, and has a global reach spanning more than 180 countries. In 2022, Atlas Copco had revenues of BSEK 141 and about 49 000 employees at year end.

Business areas

Atlas Copco Group has four business areas. The business areas are responsible for developing their respective operations by implementing and following up on strategies and objectives to achieve sustainable, profitable growth.

The **Compressor Technique** business area provides compressed air solutions; industrial compressors, gas and process compressors and expanders, air and gas treatment equipment, and air management systems. The business area has a global service network and innovates for sustainable productivity in the manufacturing and process industries. Principal product development and manufacturing units are located in Belgium, the United States, China, India, Germany, and Italy.

The **Vacuum Technique** business area provides vacuum products, exhaust management systems, valves and related products. The main markets served are semiconductor and scientific instruments as well as a wide range of industrial segments including chemical process industries, food packaging and paper handling. The business area has a global service network and innovates for sustainable productivity in order to further improve its customers' performance. Principal product development and manufacturing units are located in the United States, Mexico, United Kingdom, Czech Republic, Germany, South Korea, China, and Japan.

The **Industrial Technique** business area provides industrial power tools, assembly and machine vision solutions, quality assurance products, software, and service through a global network. The business area innovates for sustainable productivity for customers in the automotive and general industries. Principal product development and manufacturing units are located in Sweden, Germany, Hungary, United Kingdom, France, the United States, China, and Japan.

The **Power Technique** business area provides portable air and power, industrial and portable flow solutions through products such as mobile compressors, generators, light towers, industrial and portable pumps, along with a number of complementary products. It also offers specialty rental and provides service through a global network. Guided by a forward-thinking approach to innovation, Power Technique provides sustainable productivity solutions across multiple industries, including construction, manufacturing, oil and gas, and exploration drilling. Principal product development and manufacturing units are located in Belgium, Spain, Germany, the United States, China, and India.

Vision, mission and strategy

The Atlas Copco Group's vision is to become and remain First in Mind—First in Choice of its customers and other principal

stakeholders. The mission is to achieve sustainable, profitable growth. Sustainability plays an important role in Atlas Copco's vision and it is an integral aspect of the Group's mission. An integrated sustainability strategy, backed by ambitious goals, helps the company deliver greater value to all its stakeholders in a way that is economically, environmentally and socially responsible.
