# Atlas Copco Group

## Interim report on Q4 and full-year summary 2023

### Mixed demand, record revenues and cash flow conclude a record year

*The comparison figures presented in this report refer to previous year unless otherwise stated.*

#### Fourth quarter

- Orders received increased 2% to MSEK 36 843 (36 148), organic increase of 1%
- Revenues increased 12% to MSEK 44 954 (40 054), organic growth of 10%
- Operating profit reached MSEK 9 086 (7 810), corresponding to a margin of 20.2% (19.5)
  - Adjusted operating profit, excluding items affecting comparability, was MSEK 9 956 (8 029), corresponding to a margin of 22.1% (20.0)
- Profit before tax amounted to MSEK 8 833 (7 620)
- Basic earnings per share were SEK 1.39 (1.24)
- Operating cash flow at MSEK 8 799 (5 930)
- Return on capital employed was 30% (29)
- The Board of Directors proposes:
  - Ordinary dividend for 2023 of SEK 2.80 (2.30) per share, to be paid in two equal installments

## Summary of full-year 2023

**Orders and revenues**

The order intake in 2023 increased 8% to record MSEK 170 627 (158 092). Acquisition contributed with 5% and currency had a positive effect of 3%. Organically, the order intake remained unchanged. Revenues also reached a record and increased 22% to MSEK 172 664 (141 325), corresponding to a 14% organic increase.

**Sales bridge**

MSEK	January-December	
	Orders received	Revenues
2022	158 092	141 325
Structural change, %	+5	+4
Currency, %	+3	+4
Organic*, %	+0	+14
Total, %	+8	+22
2023	170 627	172 664

\* Volume, price and mix.

**Orders, revenues, and operating profit margin**

\* 2014–2016 figures best estimated numbers, as the effects of the Split of the Group and restatements for IFRS 15 are not fully reconciled.

**Results and cash flow**

Operating profit increased 23% to record MSEK 37 091 (30 216), corresponding to a margin of 21.5% (21.4). Items affecting comparability amounted to MSEK -1 126 (151) whereof the change in provision for share-related long-term incentive programs, reported in Common Group Items, was MSEK -520 (151). Other items affecting comparability includes MSEK -606 related to a provision for a commercial dispute originating from an agreement dating back to before the current Group structure and the split of the Group in 2018, also reported in

Common Group Items. Adjusted operating profit increased 27% to MSEK 38 217 (30 065) corresponding to a margin of 22.1% (21.3). Changes in exchange rates compared with the previous year had a positive effect of MSEK 930 on the operating profit, but the main explanation for the higher margin was increased organic revenues.

Profit before tax amounted to MSEK 36 442 (30 044), corresponding to a margin of 21.1% (21.3). Income tax expense amounted to MSEK 8 390 (6 562), corresponding to an effective tax rate of 23.0% (21.8). The higher effective tax rate follows the increased nominal tax rate in the UK and a geographical mix effect.

Profit for the period was MSEK 28 052 (23 482). Basic and diluted earnings per share were SEK 5.76 (4.82) and SEK 5.75 (4.81), respectively.

Operating cash flow (important internal KPI, but not an IFRS measurement, and hence reconciled on page 14) before acquisitions, divestments and dividends reached MSEK 23 192 (17 099).

**Dividend**

The Board of Directors proposes to the Annual General Meeting an ordinary dividend of SEK 2.80 (2.30) per share for the 2023 fiscal year. Excluding shares currently held by the company, the proposed dividend corresponds to a total of MSEK 13 638 (11 203). In order to facilitate a more efficient cash management, the ordinary annual dividend is proposed to be paid in two equal installments, the first with record date April 26, 2024, and the second with record date October 21, 2024.

**Personnel stock option program**

The Board of Directors will propose to the Annual General Meeting a similar performance-based long-term incentive program as in the previous years. For Group Management and division presidents, participation in the plan will require own investment in Atlas Copco shares. The details of the proposal will be communicated in connection with the Notice of the Annual General Meeting.

**Important events – before and after period end**

On November 24, 2023, it was announced that Mats Rahmström, the President and CEO of the Atlas Copco Group, will leave the Group. After 35 years with the Group and almost seven years as CEO, Mats Rahmström informed the Board of Directors of Atlas Copco AB that he wishes to step down. Mats Rahmström will continue to be fully operational up until April 30, 2024.

On January 11, 2024, it was announced that the Board of Directors has appointed Vagner Rego (currently Business Area President for the business area Compressor Technique) as the new President and CEO of Atlas Copco Group, effective May 1, 2024.

## Revenues, profits and returns

Revenues increased 12% to record MSEK 44 954 (40 054), corresponding to an organic growth of 10%. Acquisitions added 2%, while currency had no effect.

The operating profit increased 16% to MSEK 9 086 (7 810) and includes items affecting comparability of MSEK -870 (-219). The MSEK -870 consist of MSEK -264 (-219) from a change in provision for share related long-term incentive programs, and MSEK -606 related to a provision for a commercial dispute originating from an agreement dating back to before the current Group structure and the split of the Group in 2018, all reported in Common Group Items. The adjusted operating profit increased 24% to MSEK 9 956 (8 029), corresponding to a margin of 22.1% (20.0). The main explanation for the higher margin was increased organic revenues and previous year's high costs related to supply chain constraints, that were not repeated.

Net financial items amounted to MSEK -253 (-190) whereof interest net at MSEK -131 (-69). The increased interest cost was mainly a result of higher interest rates. Other financial items, including financial exchange differences, were MSEK -122 (-121). Profit before tax amounted to MSEK 8 833 (7 620), corresponding to a margin of 19.6% (19.0). Corporate income tax amounted to MSEK -2 053 (-1 565), corresponding to an effective tax rate of 23.2% (20.5). The main reason for the higher effective tax rate was that previous year contained positive one-off adjustments. The higher effective tax rate is also a consequence of the increased nominal tax rate in the UK and a geographical mix effect.

Profit for the period was MSEK 6 780 (6 055). Basic and diluted earnings per share were SEK 1.39 (1.24) and SEK 1.39 (1.24), respectively.

The return on capital employed during the last 12 months was 30% (29). Return on equity was 32% (32). The Group uses a weighted average cost of capital (WACC) of 8.0% as an investment and overall performance benchmark.

## Operating cash flow and investments

Operating cash surplus increased to MSEK 12 065 (10 251). Net financial items and taxes paid amounted to MSEK -1 539 (-1 711). Working capital decreased by MSEK 558 (increase of 1 370), mainly due to decreased inventories. Net investments in rental equipment were MSEK -592 (-247). Net investments in property, plant, and equipment, were MSEK -1 002 (-988).

Operating cash flow (an important internal KPI, but not an IFRS measurement, and hence defined on page 14) reached MSEK 8 799 (5 930).

## Net indebtedness

The Group's net indebtedness amounted to MSEK 23 441 (26 570), of which MSEK 2 584 (2 380) was attributable to post-employment benefits. The Group's interest-bearing liabilities have an average maturity of 5.7 years. The net debt/EBITDA ratio was 0.5 (0.7) and the net debt/equity ratio was 26% (33).

## Acquisition and divestment of own shares

During the quarter, 2 649 622 series A shares, net, were acquired for a net value of MSEK 465. These transactions are in accordance with mandates granted by the Annual General Meeting and relate to the Group's long-term incentive programs. See page 18.

## Employees

On December 31, 2023, the number of employees was 52 778 (48 951). The number of consultants/external workforce was 3 123 (3 834). For comparable units, the total workforce increased by 1 986 from December 31, 2022.

## Revenues and operating profit – bridge

	Orders received	Revenues
2022	16 202	17 085
Structural change, %	+1	+1
Currency, %	-2	+0
Organic*, %	+7	+15
Total, %	+6	+16
2023	17 250	19 827

\* Volume, price and mix.

## Industrial compressors

Order volumes for industrial compressors increased compared to the previous year. The growth was primarily driven by higher demand for large-sized compressors, even if orders for small and medium-sized compressors also grew somewhat. Sequentially, order volumes decreased.

Geographically, and compared to the previous year, order volumes increased in all regions except Europe, where volumes decreased.

## Gas and process compressors

The order intake for gas and process compressors decreased compared to the previous year due to lower demand from several customer segments.

Year-on-year, the order intake increased in Europe and Africa/Middle East but decreased in North America and Asia.

## Compressor service

The demand for service remained strong, and the order intake continued to grow with solid order growth in all regions.

## Innovation

A new compressor and a dryer forming an essential building block for carbon capture systems, the ZR CO<sub>2</sub> + ND CO<sub>2</sub>, was introduced to the market. The new products can support with compression and drying of CO<sub>2</sub> in several industries where CO<sub>2</sub> is captured to prevent it from entering the atmosphere, such as steel and glass production, chemical and cement industry, as well as developing technologies using CO<sub>2</sub> as a feedstock, such as methanation and the production of more sustainable aviation fuel.

## Acquisitions

The following acquisitions were completed in the quarter:

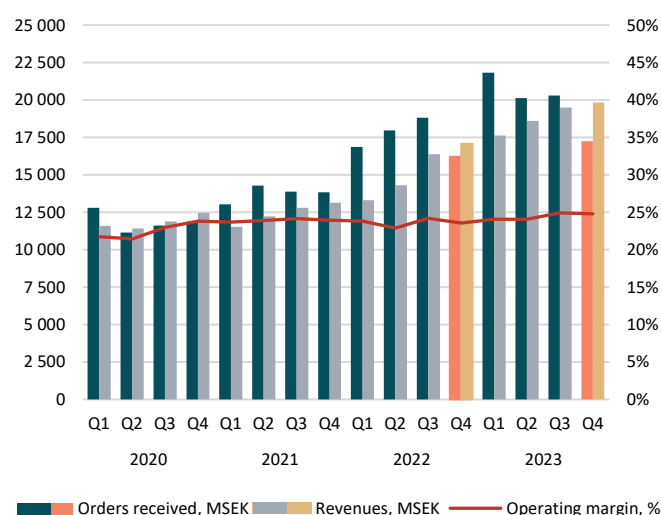

- Two US-based medical gas systems service suppliers: William G Frank Medical Gas Testing and Consulting, LLC, and Medical Gas Credentialing LLC, with in total 8 employees and revenues of approximately MSEK 20 in 2022.
- ACJ, s.r.o., a compressor distributor in Slovakia with 14 employees.
- Hamamcıoğlu Makina (HAMAK), a Turkish distributor of compressed air solutions with 23 employees and revenues of approximately MSEK 75 in 2022.

## Revenues and profitability

Revenues increased 16% to record MSEK 19 827 (17 085), corresponding to an organic increase of 15%.

The operating profit also reached a record at MSEK 4 915 (4 026), corresponding to a margin of 24.8% (23.6). The higher margin was mainly due to increased organic revenues. Currency and dilution from acquisitions had a small negative effect on the margin. Return on capital employed (last 12 months) was 85% (82).

## Orders, revenues, and operating profit margin

## Vacuum Technique

MSEK	October-December			January-December		
	2023	2022		2023	2022	
Orders received	8 235	8 482	-3%	35 723	41 213	-13%
Revenues	11 110	10 646	4%	42 812	38 941	10%
EBITA*	2 550	2 105	21%	10 327	9 019	15%
– as a percentage of revenues	23.0	19.8		24.1	23.2	
Operating profit	2 370	1 941	22%	9 607	8 407	14%
– as a percentage of revenues	21.3	18.2		22.4	21.6	
Return on capital employed, %	22	24				

\* Operating profit excluding amortization of intangibles related to acquisitions.

- **Equipment orders down, driven by industrial and scientific vacuum equipment**
- **Continued growth for service**
- **Record revenues, operating profit margin at 21.3%**

### Sales bridge

MSEK	October-December	
	Orders received	Revenues
2022	8 482	10 646
Structural change, %	+3	+2
Currency, %	-1	-1
Organic*, %	-5	+3
Total, %	-3	+4
2023	8 235	11 110

\* Volume, price and mix.

### Semiconductor and flat panel display equipment

The demand for equipment for the semiconductor and flat panel industry remained relatively stable. Order volumes were largely unchanged compared to the previous year and sequentially.

Year-on-year order volumes increased in North America but decreased in Asia and Europe.

### Industrial and scientific vacuum equipment

Order volumes for industrial and scientific vacuum equipment decreased compared to the previous year and compared to the previous quarter. The lower year-on-year order intake was primarily driven by weaker demand for products used in analytical instrument and R&D applications.

Geographically, and compared to the previous year, order volumes increased in North America but decreased in Europe and Asia.

### Vacuum service

The service business continued to grow with increased order intake from semiconductor and industrial customers. Order growth was achieved in most regions.

### Innovation

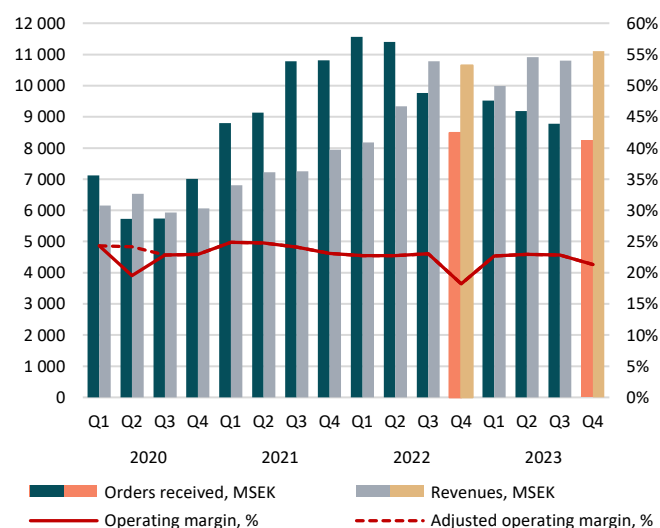

A new generation dry claw pumps, DZS A & DZS VSD+, designed primarily for the general industry was introduced. The new products offer low noise levels, improved reliability thanks to internal temperature control and better performance thanks to a patented smart algorithm. Versions equipped with variable speed drive are also available, helping customers achieving energy savings and productivity.

### Revenues and profitability

Revenues reached a record MSEK 11 110 (10 646), corresponding to an organic increase of 3%.

The operating profit increased 22% to MSEK 2 370 (1 941), corresponding to a margin of 21.3% (18.2). The main reasons for the higher margin were increased organic revenues, and high costs in the previous year related to supply chain constraints, and inefficiencies in production and service, that were not repeated. Currency also had a positive effect on the operating margin, while acquisitions had a small dilutive effect on the margin. Return on capital employed (last 12 months) was 22% (24).

### Orders, revenues, and operating profit margin

## Industrial Technique

MSEK	October-December			January-December		
	2023	2022		2023	2022	
Orders received	6 407	6 199	3%	29 497	26 070	13%
Revenues	7 375	6 608	12%	28 453	23 007	24%
EBITA*	1 714	1 322	30%	6 730	5 127	31%
– as a percentage of revenues	23.2	20.0		23.7	22.3	
Operating profit	1 580	1 188	33%	6 183	4 597	35%
– as a percentage of revenues	21.4	18.0		21.7	20.0	
Return on capital employed, %	21	17				

\* Operating profit excluding amortization of intangibles related to acquisitions.

- **Slight order growth for equipment driven by general industry**
- **Continued solid growth for service**
- **Record revenues, operating profit margin at 21.4%**

MSEK	October-December	
	Orders received	Revenues
2022	6 199	6 608
Structural change, %	+0	+0
Currency, %	+0	+1
Organic*, %	+3	+11
Total, %	+3	+12
2023	6 407	7 375

\* Volume, price and mix.

### Automotive industry

Order volumes for industrial assembly and vision solutions to the automotive industry decreased compared to the previous year, primarily due to lower demand in Asia. The order intake was also markedly lower compared to the previous quarter.

Year-on-year, the order intake decreased in Asia, was somewhat lower in North America, but increased in Europe.

### General industry

The order intake for industrial assembly and vision solutions for the general industry increased, supported by increased demand from several customer segments, such as off-highway, aerospace, and vision applications for solar energy, battery, and glass production. Sequentially, order volumes remained essentially unchanged.

Geographically, and compared to the previous year, order volumes increased in all major regions.

### Service

Order volumes for the service remained strong, and solid order growth was achieved in all major regions.

### Innovation

A robot-based and fully automated machine vision system for paint inspection in the automotive industry was introduced. Artificial intelligence algorithms ensure a 98.5% detection rate of all types of quality defects, while process analytics provides real-time feedback to ensure continuous process improvement. Thanks to digital-twin functionality, customers' installation time can be reduced by up to 75%.

### Revenues and profitability

Revenues increased 12% to record MSEK 7 375 (6 608), corresponding to an organic increase of 11%.

The operating profit increased 33% to MSEK 1 580 (1 188), corresponding to a margin of 21.4% (18.0). The main explanations for the higher margin were increased organic revenues and high costs in the previous year, related to supply chain constraints and inventory, that were not repeated. Return on capital employed (last 12 months) was 21% (17).

### Orders, revenues, and operating profit margin

## Power Technique

MSEK	October-December			January-December		
	2023	2022		2023	2022	
Orders received	5 231	5 461	-4%	26 940	21 783	24%
Revenues	6 933	5 897	18%	26 899	19 053	41%
EBITA*	1 407	1 132	24%	5 490	3 666	50%
– as a percentage of revenues	20.3	19.2		20.4	19.2	
Operating profit	1 323	1 071	24%	5 191	3 525	47%
– as a percentage of revenues	19.1	18.2		19.3	18.5	
Return on capital employed, %	22	25				

\* Operating profit excluding amortization of intangibles related to acquisitions.

- **Weaker equipment demand**
- **Continued solid growth for specialty rental and service**
- **Operating profit margin at 19.1%**

## Sales bridge

MSEK	October-December	
	Orders received	Revenues
2022	5 461	5 897
Structural change, %	+8	+7
Currency, %	-1	+1
Organic*, %	-11	+10
Total, %	-4	+18
2023	5 231	6 933

\* Volume, price and mix.

## Equipment

The overall demand for equipment such as portable compressors, generators, and pumps weakened, and the order intake decreased markedly compared to the previous year and sequentially.

Geographically and compared to the previous year, the order intake increased in Asia but decreased in North America, Europe, and Africa/Middle East.

## Specialty rental

The demand for the specialty rental business remained strong and order volumes continued to grow compared to the previous year and sequentially.

Year-on-year, solid order growth was achieved in all regions.

## Service

Order volumes for service continued to grow with increased order intake in all regions, especially in North America and Asia.

## Innovation

A new energy storage system in a 20-foot container, the ZBC1000-1200m, was introduced. By using different power sources such as solar, the new products will enable the creation of micro-grids at infrastructure construction sites, and support hybrid power plants and stabilization grid maintenance work.

## Acquisitions

In the quarter, Sykes Group Pty Ltd (Sykes) was acquired, an Australian dewatering pump manufacturer with 123 employees and revenues of MSEK 455 in 2022.

## Revenues and profitability

Revenues increased 18% to MSEK 6 933 (5 897), corresponding to an organic increase of 10%.

The operating profit increased 24% to MSEK 1 323 (1 071), corresponding to a margin of 19.1% (18.2). The margin was supported by increased organic revenues, while currency affected the margin negatively. Acquisitions had no material effect on the operating margin. Return on capital employed (last 12 months) was 22% (25).

## Orders, revenues, and operating profit margin

## Accounting principles

The consolidated accounts of Atlas Copco Group are prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU. The description of the accounting principles and definitions applied in this report are found in the Annual Report 2022. The interim report is prepared in accordance with IAS 34 Interim Financial Reporting. Non-IFRS measures are also presented in the report since they are considered to be important supplemental measures of the company's performance. For further information about these measures and how they have been calculated, please visit:

<https://www.atlascopcogroup.com/en/investor-relations/key-figures>

## Risks, risk management and factors of uncertainty

Atlas Copco Group's global and diversified business is active within many customer segments and results in a variety of risks and opportunities geographically and operationally. Thus, the ability to identify, analyze and manage risks is crucial for effective governance and control of the business. The aim is to meet the Group's goals with a high awareness of risks and well-managed risk taking. Atlas Copco Group sees the benefits of an efficient risk management both from risk reduction and business opportunity perspectives, which can lead to good business growth.

Risks in Atlas Copco Group are identified in a 360-degree spectrum, meaning that both internal, and external exposures are assessed, including today's circumstances and future changes. The Group's risk management approach follows the decentralized structure of Atlas Copco Group. Risks are analyzed and addressed in an integrated way. Local companies are responsible for their own risk management, which is monitored and followed up regularly at for example local business board meetings. Group functions responsible for legal, insurance, human resources, compliance, sustainability, treasury, tax, controlling and accounting provide policies, guidelines and instructions regarding risk management.

Risk areas include compliance risks, external exposure risks, including pandemics, operational risks and strategic risks. These risk areas can impact the business negatively both in the long and short term, but often also create business opportunities if managed well. Examples of risks and how they are handled is described below.

### Market risks

The demand for Atlas Copco Group's equipment and services is affected by changes in the customers' investment and production levels. A general economic downturn, geopolitical tensions, pandemics, changes in trade agreements, trade sanctions, a widespread financial crisis and other macroeconomic disturbances may, directly or indirectly, affect the Group negatively both in terms of revenues and profitability. However, the Group's sales are well diversified with customers in many industries and countries around the world, which mitigates the risk.

### Financial risks

Atlas Copco Group is subject to currency risks, funding risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco Group has adopted a policy to control the financial risks to which the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

### Production risks

A large part of the components used in production are sourced from sub-suppliers. The availability is dependent on the sub-suppliers and if they have interruptions or lack capacity, this may adversely affect production. To minimize these risks, Atlas Copco Group has established a global network of sub-suppliers, which means that in most cases there are more than one sub-supplier that can provide a certain component. Atlas Copco Group is also directly and indirectly exposed to raw material prices. Cost increases for raw materials and components often coincide with strong end-customer demand and can partly be compensated for by increased sales prices.

### Acquisitions

Atlas Copco Group has the ambition to grow all its business areas, primarily through organic growth, complemented by selected acquisitions. The integration of acquired businesses is a difficult process and it is not certain that every integration will be successful. Therefore, costs related to acquisitions can be higher and/or synergies can take longer to materialize than anticipated.

### Risks related to the war in Ukraine

Atlas Copco Group's financial exposure to Russia and Ukraine is limited. During 2023, revenues from Russia accounted for well below 0.5% of the Group's total revenues. Ukraine accounted for less than 0.1% of the Group's total revenues. Further, Atlas Copco Group has no production units in Russia or Ukraine. Hence the ongoing war has very limited direct financial effects on Atlas Copco Group. Given the uncertainties surrounding the ongoing conflict, it is very difficult to predict potential indirect effects on Atlas Copco Group. As of December 31, 2023, there is no significant impact on any balance sheet items.

### Change regarding European Commission's decision on Belgium's tax rulings

On September 20, 2023, the General Court of the European Union (EGC) ruled in favor of the European Commission, confirming the Commission's decision from 2016 that Belgian tax rulings granted to companies regarding "Excess Profit" shall be considered as illegal state aid. Atlas Copco Group has appealed the decision to the European Court of Justice (ECJ). During 2015-2017, Atlas Copco Group paid and expensed the full costs of MEUR 313 related to the Commission's decision.

For more information on Atlas Copco Group's risk management process and further descriptions of risks and how they are handled, see the Annual Report 2022.

## Forward-looking statements

Some statements in this report are forward-looking, and the actual outcome could be materially different. In addition to the factors explicitly discussed, other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialization and technological difficulties, interruptions in supply, and major customer credit losses.

## Atlas Copco AB

Atlas Copco AB and its subsidiaries are often referred to as Atlas Copco Group, Atlas Copco, the Group or the company. Atlas Copco AB is also sometimes referred to as Atlas Copco Group, the Group or the company when describing results, targets or Group-wide frameworks and initiatives. Any mentioning of the Board or the Directors refers to the Board of Directors of Atlas Copco AB.

**Fair value of derivatives, cash equivalents and borrowings**

The carrying value and fair value of the Group's outstanding derivatives, liquidity funds and borrowings are shown in the tables below. The fair values of bonds are based on level 1 and the fair values of derivatives, liquidity funds and other loans are based on level 2 in the fair value hierarchy. Compared to 2022, no transfers have been made between different levels in the fair value hierarchy for derivatives and borrowings and no significant changes have been made to valuation techniques, inputs or assumptions. Liquidity funds, reported under cash equivalents, are according to IFRS 9 classified at fair value through profit and loss. For further information, see note 27 in the Annual Report 2022. <http://www.atlascopco.com/ir>

\* Annual revenues and number of employees at time of acquisition/divestment. No revenues are disclosed for former Atlas Copco distributors.

Due to the relatively small size of most of the acquisitions made in 2023, full disclosure as per IFRS 3 is not given in this interim report.

Disclosure on an aggregated level will be given in the Annual Report 2023. See the Annual Report for 2022 for disclosure of acquisitions made in 2022.

### Accounting principles

Atlas Copco AB is the ultimate Parent Company of the Atlas Copco Group. The financial statements of Atlas Copco AB have been prepared in accordance with the Swedish Annual Accounts Act and the accounting standard RFR 2, Accounting for Legal Entities. The same accounting principles and methods of computation are followed in the interim financial statements as compared with the most recent annual financial statements. See also accounting principles, page 9.

## Parent Company

### Distribution of shares

Share capital equaled MSEK 786 (786) at the end of the period, distributed as follows:

Class of share	Shares
A shares	3 357 576 384
B shares	1 560 876 032
Total	4 918 452 416
- of which A shares held by Atlas Copco AB	47 893 133
- of which B shares held by Atlas Copco AB	0
Total shares outstanding, net of shares held by Atlas Copco AB	4 870 559 283

### Performance-based personnel option plan

The Annual General Meeting 2023 approved a performance-based long-term incentive program. For Group Management and division presidents, the plan requires management's own investment in Atlas Copco shares. The intention was to cover Atlas Copco's obligation under the plan through the repurchase of the company's own shares. For further information, see [www.atlascopcogroup.com/agm](http://www.atlascopcogroup.com/agm)

### Transactions in own shares

Atlas Copco AB has mandates to acquire and sell own shares as per below:

- Acquisition of not more than 14 810 000 series A shares, whereof a maximum of 10 450 000 may be transferred to personnel stock option holders under the performance-based stock option plan for 2023.
- Acquisition of not more than 60 000 series A shares to hedge the obligation of the company to pay remuneration to board members who have chosen to receive 50% of the remuneration in synthetic shares.
- The sale of not more than 60 000 series A shares to cover costs related to previously issued synthetic shares to board members.

- The sale of a maximum 33 000 000 series A shares currently held by the company, for the purpose of covering costs of fulfilling obligations related to the option plans 2017, 2018, 2019 and 2020.
- The shares may only be acquired or sold on NASDAQ Stockholm at a price within the registered price interval at any given time.

During 2023, 2 202 318 series A shares, net, were sold. These transactions are in accordance with mandates granted. The company's holding of own shares at the end of the period appears in the table to the left.

### Risks and factors of uncertainty

#### Financial risks

Atlas Copco AB is subject to currency risks, funding risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco AB has adopted a policy to control the financial risks to which Atlas Copco AB and the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

For further information, see the Annual Report 2022.

#### Related parties

There have been no significant changes in the relationships or transactions with related parties for the Group or Parent Company compared with the information given in the Annual Report 2022.

## This is Atlas Copco Group

Atlas Copco Group enables technology that transforms the future. We innovate to develop products, services, and solutions that are key to our customers' success. Our four business areas offer compressed air and gas solutions, vacuum solutions, energy solutions, dewatering and industrial pumps, industrial power tools, and assembly and machine vision solutions. In 2023, the Group had revenues of BSEK 173 and about 53 000 employees at year-end.

### Business areas

Atlas Copco Group has four business areas. The business areas are responsible for developing their respective operations by implementing and following up on strategies and objectives to achieve sustainable, profitable growth.

The **Compressor Technique** business area provides compressed air and gas solutions such as industrial compressors, gas and process compressors and expanders, air and gas treatment equipment, and air management systems. The business area has a global service network and innovates technology that transforms the future of the manufacturing and process industries. Principal product development and manufacturing units are located in Belgium, the United States, China, India, Germany, and Italy.

The **Vacuum Technique** business area provides vacuum products, exhaust management systems, valves, and related products. The main markets served are semiconductor and scientific instruments, as well as a wide range of industrial segments, including chemical process industries, food packaging, and paper handling. The business area has a global service network and innovates technology that transforms the future and improves customer performance. Principal product development and manufacturing units are located in the United States, Mexico, United Kingdom, Czech Republic, Germany, South Korea, China, and Japan.

The **Industrial Technique** business area provides industrial power tools, assembly and machine vision solutions, quality assurance products, and services through a global network. The business area innovates technology that transforms the future for customers in the automotive and general industries. Principal product development and manufacturing units are located in Sweden, Germany, Hungary, United Kingdom, France, the United States, China, and Japan.

The **Power Technique business** area provides portable air and power, industrial and portable flow solutions through products such as mobile compressors, generators, energy storage systems, dewatering and industrial pumps, along with a number of complementary products. It also offers specialty rental and provides service through a global network. The business area innovates technology that transforms the future for multiple industries, including infrastructure construction, manufacturing, oil and gas, and exploration drilling. Principal product development and manufacturing units are located in Belgium, Spain, Germany, the United States, China, and India.

### Vision, mission and strategy

The Atlas Copco Group's vision is to become and remain First in Mind—First in Choice of its customers and other stakeholders. The mission is to achieve sustainable, profitable inclusive growth. This means that we should continuously deliver profitable growth with an increased positive impact on society and the environment and by promoting diversity and inclusion. Inclusion is about providing everyone within our organization with support and inspiration to learn and grow. It also means that we include the perspective of different stakeholders, like customers and society, when we create value. An integrated sustainability strategy, backed by ambitious goals, helps the company deliver greater value to all its stakeholders in a way that is economically, environmentally, and socially responsible.
