Q3 in brief

- Overall stable orders
- Mixed end-market demand
 - Industrial compressors flat, gas and process compressors down
 - Growth for vacuum equipment driven by semi
 - Industrial assembly and vision solutions down driven by auto
 - Weaker demand for power and flow equipment compensated by acquisitions
 - Solid growth for service in all business areas
- Healthy operating profit
- Solid operating cash flow
- 10 acquisitions closed

Q3 financials

- Orders received were MSEK 42 080 (42 606), organic increase of 1%
- Revenues were MSEK 43 105 (44 485), organic decline of 1%
- Operating profit reached MSEK 9 337 (10 117), margin at 21.7% (22.7)
 - Adjusted operating profit at MSEK 9 441 (10 110), margin at 21.9% (22.7)
- Profit for the period was MSEK 7 174 (7 803)
- Basic earnings per share were SEK 1.47 (1.60)
- Operating cash flow at MSEK 7 545 (6 581)
- Return on capital employed was 28% (30)

Orders received – local currency

September 30, 2024

Share of orders received, year-to-date, %	Year-to-date vs. previous year, %	Last 3 months vs. previous year, %
---	-----------------------------------	------------------------------------

Order growth per quarter

Organic growth, %

*2015-2017 excluding Mining and Rock Excavation Technique business area (now part of Epiroc AB).

*Volume, price and mix.

Orders received per business area and organic order growth

* Share of Group orders received 12 months ending September 2024.
3-month organic order development compared to previous year.

Compressor Technique

- Orders up 1% organically
 - Industrial compressors flat
 - Gas and process compressors down
 - Solid growth for service
- Revenues increased 2% organically
- Operating profit margin at 26.1% (24.9)
 - Supported by currency and combined volume, price, mix effect
- ROCE at 85% (82)

Innovation:

A new range for compressing biogas suitable when upgrading into biomethane for compressed natural gas refueling and gas grid applications.

Vacuum Technique

- Organic order growth of 10%
 - Semi equipment orders up, driven by increased demand in Asia
 - Industrial and scientific equipment down
 - Solid growth for service
- Revenues down 2% organically
- Operating profit margin at 19.3% (22.8)
 - Adjusted for restructuring costs 20.1% (22.8)
 - Negatively affected by currency
- ROCE at 20% (22)

Innovation:

A new integrated vacuum and abatement system for the semiconductor market, specifically designed for safe handling in hazardous production processes.

Industrial Technique

- Organic order decline of 7%
 - Markedly weaker equipment demand from the automotive industry
 - Equipment orders to the general industry basically flat
 - Solid growth for service
- Revenues down 3% organically
- Operating profit margin at 20.0% (22.5)
 - Adjusted for restructuring costs 20.6% (22.5)
 - Negatively affected by lower revenue volumes and currency
- ROCE at 21% (20)

Innovation:

A new compact robot-guided vision sensor for quality assurance, supporting improved inline inspection of painted surfaces for the automotive industry.

Power Technique

- Orders organically flat
 - Weaker equipment demand — Order growth driven by acquisitions
 - Stable demand for specialty rental
 - Solid growth for service
- Revenues down 5% organically
- Operating profit margin at 18.0% (20.0)
 - Negatively affected by lower revenue volumes, investments in specialty rental fleet and acquisitions
- ROCE at 18% (22)

Innovation:

A new range of surface dewatering pumps with connectivity capabilities, designed to pump liquids with high pressure and flow, and perform in the harshest environment.

Forward-looking statements

“Some statements in this report are forward-looking, and the actual outcome could be materially different. In addition to the factors explicitly discussed, other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialization and technological difficulties, interruptions in supply, and major customer credit losses.”
