

Q3 results 2025

October 23, 2025

Atlas Copco
Group

Q3 summary

- Mixed demand and stable overall orders
 - Industrial compressors flat, order decline for gas and process compressors
 - Vacuum equipment orders somewhat down
 - Weaker demand for industrial assembly and vision solutions
 - Solid growth for power, air and flow equipment
 - Continued growth for service
- Revenues somewhat up organically
- Lower operating profit
 - Negatively affected by restructuring costs, acquisitions and trade tariffs
 - Positive contribution from currency
- Strong operating cash flow
- 6 acquisitions closed

Q3 financials

- Orders received at MSEK 40 517 (42 080), organically unchanged
- Revenues reached MSEK 41 621 (43 105), organic increase of 1%
- Operating profit reached MSEK 8 546 (9 337), margin of 20.5% (21.7)
 - Adjusted operating profit at MSEK 8 862 (9 441), margin of 21.3% (21.9)
- Profit for the period, MSEK 6 675 (7 174)
- Basic earnings per share at SEK 1.37 (1.47)
- Operating cash flow at MSEK 7 330 (7 545)
- Return on capital employed at 25% (28)

Orders received and organic order growth per business area

Share of Group orders received 12 months ending September 2025.
3-month organic order development compared to previous year.

Compressor Technique

- Orders unchanged organically
 - Industrial compressors basically unchanged
 - Decreased order intake for gas and process compressors
 - Continued growth for service
- Revenue increase of 4% organically
- Operating profit margin at 25.3% (26.1)
 - Negatively affected by acquisitions, sales mix and trade tariffs
 - No material effect from currency
- ROCE at 80% (85)

Innovation:

A new variable oil-injected screw compressor for the Chinese market, the E Basic 7.5 kW offers a reduced footprint and reliable performance without compromising energy efficiency.

Vacuum Technique

- Orders up 1% organically
 - Semi equipment down, primarily in North America
 - Solid growth for industrial and scientific vacuum equipment
 - Solid growth for service
- Revenues down 6% organically
- Adjusted operating profit margin at 20.1% (20.1)
 - Negatively affected by lower revenue volumes and trade tariffs
 - Positive effect from currency
 - Reported margin at 18.5% (19.3) affected by restructuring costs of MSEK -152
- ROCE at 18% (20)

Innovation:

A new integrated abatement system for the semiconductor industry, the Axentis Compact, provides 35% reduced footprint compared to alternative products and offers high flexibility.

Industrial Technique

- Organic order decline of 3%
 - Weaker equipment demand from the automotive industry
 - Equipment orders to the general industry flat
 - Service orders basically unchanged
- Revenues down 1% organically
- Adjusted operating profit margin at 18.8% (20.6)
 - Negatively affected by lower revenue volumes, currency, dilution from acquisitions, and trade tariffs
 - Reported margin at 18.0% (20.0), affected by restructuring costs of MSEK -53
- ROCE at 18% (21)

Innovation:

A new high-speed dispensing solution, combining the Scheugenflug PM8000 and the DP8000, offers approximately 50% reduced process time and a 70% reduction in material compared to alternative systems.

Power Technique

- Orders up 5% organically
 - Solid growth for equipment
 - Growth for specialty rental
 - Increased order intake for service
- Revenues up 3% organically
- Operating profit margin at 17.0% (18.0)
 - Negatively affected by higher functional costs, trade tariffs and dilution from acquisitions
 - No material effect from currency
- ROCE at 15% (18)

Innovation:

The Wangen Twin 180, a new twin screw pump for applications pumping highly viscous media which require high flow rates in hygienic product processes.

transforms the future

Forward-looking statements

“Some statements in this report are forward-looking, and the actual outcome could be materially different. In addition to the factors explicitly discussed, other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialization and technological difficulties, interruptions in supply, and major customer credit losses.”
