A Brief History of the Group

Atlas was founded in **1873** with a focus on engineering products for the rail industry.

The name **Atlas** was inspired by the Greek Titan **Atlas** who was able to carry the world on his shoulders.

The company has had 3 name changes:

Atlas
Atlas Diesel (1917)
Atlas Copco (1956)

Copco is derived from the name of the major Belgian subsidiary with a focus on compressed air – **Compagnie Pneumatique Commerciale**.

In 2023, **Atlas Copco** celebrated its 150th anniversary and a new **Group** identity was launched.

Vagner Rego was appointed the 13th CEO of the Group in May, 2024.

Products we Help Produce

Just about everything in this picture can be made with our products. **Can you guess some of the applications?**
