

Ref: EcoVadis Assessment for Business Partners

Wilrijk, July 2026

Dear Business Partner,

Atlas Copco Group is a global industrial company based in Stockholm, Sweden, with more than 56.000 employees and customers in over 180 countries. Our industrial ideas empower our customers to grow and drive society forward, creating a better tomorrow. You may be more familiar with supplying to one of our many brands. (Visit [Brands](#))

The Atlas Copco Group strives towards the highest ethical and environmental standards. We have set science-based targets to reduce greenhouse gas emissions in line with the goals of the Paris Agreement and contribute to the UN Global Sustainable Development Goals. We develop new solutions and products to support global sustainable development by increasing our customers' productivity and helping them meet their sustainability ambitions. Resilient, responsible supply chains are also a key contributor. Find out more on our new Atlas Copco Group [Supplier hub](#).

Engaging with suppliers on sustainability performance

To measure the quality of our suppliers' sustainability management systems, the Group has decided to work with [EcoVadis](#). EcoVadis performs customized assessment for invited partners, based on the industry, size, and location. The EcoVadis methodology includes four themes: Environment, Labor and Human Rights, Ethics and Sustainable Procurement; based on 21 criteria aligned with international standards. The EcoVadis platform is used by many leading companies and is a useful tool to support compliance to evolving national, European and global legislation (e.g. CSRD, CSDDD). We want to help you, as a valued business partner, to be prepared for the challenges of the future and invite you to join us on our journey to become more transparent and sustainable companies. We believe, by using EcoVadis, we can all achieve our goals and support each other.

The EcoVadis assessment will help indicate areas of improvement and prepare corrective action plans. Your EcoVadis scorecard can be shared with other customers and may attract new opportunities. Your participation in the assessment will be a key factor in our review processes for our procurement and future business opportunities with us. Therefore, we strongly encourage you to participate in this assessment. Please note that there is an annual fee involved ([Pricing | EcoVadis](#)). You will soon receive an invitation from EcoVadis to register on the platform and undertake the assessment. Please do not ignore this invitation. We recommend you add the [EcoVadis.com](#) domain to your company's whitelist, to ensure you receive the invitation.

Trusting that you understand the necessity and criticality of sustainable supply chains, we are looking forward to a positive response and commitment from you. In case of any questions, please contact your local procurement contact.

With kind regards
