Atlas Copco receives large mining order

Stockholm, Sweden, February 10, 2011: Atlas Copco has received an order from Fresnillo PLC, Mexico valued at approximately MUSD 45 (MSEK 300). The order is one of the largest ever for Atlas Copco's Construction and Mining business area.

The order is for underground drill rigs for silver mining and for rock reinforcement as well as products for loading and haulage. The products will be used for new development, production and expansion of the Fresnillo Silver Mine in Mexico. The Fresnillo Silver Mine is the biggest silver mine in the world.

"We are very happy that Fresnillo, for the last years, has selected Atlas Copco as one of its main suppliers. Our high quality equipment and high quality customer support positions Atlas Copco well in the world of silver mining" says Björn Rosengren, Business Area President of Atlas Copco Construction and Mining Technique.

Fresnillo Mine is a part of Fresnillo PLC in Mexico, the world's largest primary silver producer. The order was booked in January, 2011, and deliveries will start in the second half of 2011.

Atlas Copco may be required to disclose the information provided herein pursuant to the Securities Markets Act.

Atlas Copco is an industrial group with world-leading positions in compressors, construction and mining equipment, power tools and assembly systems.
