

Atlas Copco has acquired an Italian condensate management manufacturer

Nacka, Sweden, March 2, 2022: Atlas Copco has acquired SCB S.r.l., an Italian manufacturer that develops, produces and distributes electronic condensate drains for the industrial market.

SCB S.r.l. is located in Villar San Costanzo, near Cuneo in Piedmont. They have 16 employees and are privately owned. In 2021 they had revenues of MEUR 5 (MSEK 51).

The company manufactures condensate drains for the industrial market, such as energy saving electronical drains, mechanical drains, timer drains and level-controlled drains. The products serve the compressed air and vacuum market by removing water from the air stream.

“SCB is a well-established company with many years of experience and a high level of expertise in condensate management,” said Vagner Rego, Business Area President Compressor Technique. “We have a long history of working with SCB and see many possibilities for accelerated growth in this area going forward.”

The purchase price is not disclosed.

SCB S.r.l. will become part of Walker Filtration which is part of the Medical Gas Solutions Division within the Compressor Technique business area.
